DEATH OF MAY ILG DROWNING WAS DUE TO DROWNING

30-MINUTE SCHEDULE ON S.P.

Electric Trains to Leave Fourteenth and Franklin Streets Every Half Hour

New Time Card Will Be Put in Force on Suburban Lines of Railroad Company

Owing to the better facilities of transportation afforded by the new electric trains operated by the Southern Pacific from Fourteenth and Franklin streets, this city, to the Alameda mole connecting with ferries boats for San Francisco, the company has been enabled to establish a new schedule which will take effect next Tuesday morning, August 1, at which time the first train will leave the Fourteenth and Franklin street depot at 5:35 o'clock and thereafter every 30 minutes until 8:35 p.m., when a 45-minute schedule will be maintained until 12:20, the time of the last train towards San Francisco.

By the new arrangement, passengers on this line will be able to make the trip across the bay, arriving at the ferry station in exactly 30 minutes, or much less time than has until now been consumed by the cumbersome steam trains.

On Sundays the first train will leave the station here at 6:05 in the morning and then every half hour until 8:35, when a 40-minute schedule will be in force.

The new electric trains which were placed in operation several weeks ago have been running entirely to the satisfaction of the public, who seem to prefer traveling public. Their advantage over the old system has been immeasurable owing to their greater speed, cleanliness and their easier method of handling.

Southern Pacific Co. Issues New Time Schedule On Electric

ALAMEDA, July 28.—The new South Pacific local train time card for Alameda county, which goes into effect next Tuesday morning, with the installation of the complete Alameda electric

Mexican Reciprocity Sought by Buleson

Texas Congressman Calls on Taft to Establish Free Commerce With South.

WASHINGTON, July 28.—Reciprocity with Mexico similar to Canadian reciprocity is proposed, a resolution introduced today by Representative Buleson of Texas calling on President Taft immediately to start negotiations with Mexico, "looking to free commerce between the two countries."

Federal Board Holds Up Parole for Walsh

Will Not Consider Case Until Remaining Indictments Are Disposed Of.

WASHINGTON, July 28.—The federal board of parole has decided not to consider the case of John R. Walsh, the convicted banker to whom President Taft recently refused executive clemency, unless the remaining indictments against him are in some way disposed of.

(Continued on Page 2, Col. 2)

It is lucky for James C. Greech, the ex-convict who has been identified in San Mateo as the man who shot and robbed Mrs. Lillie Guggenheim in the Home of Peace cemetery yesterday, that he did not call at the county jail in this city, because if he had he would have met a warm reception and, in all probability, would at this time be an occupant of a slab in the Oakland morgue.

Greech was discharged from San Quentin a few days ago, where he had served four years on the charge of burglary committed in Alameda county and

the remaining indictments against him are in some way disposed of.

(Continued on Page 2, Col. 2)

MOROCCAN SIMOON LESS SULTRY IN GREAT BRITAIN

Premier Asquith's Statement Helps Clear Air and to Some Extent Eases the Tension

(Continued From Page 1)

dersands that Emperor William told personal friends that the Moroccan question could be settled amicably with France.

TO REORGANIZE ARMY.

RAMBOULET, France, July 28.—At the conclusion of the cabinet meeting today when President Fallières presided, two official announcements were made. The first was that Foreign Secretary Delcassé, in explaining to his colleagues the external political situation, had said that the "doux parlers" between France and Germany were proceeding normally. The second announcement was that the

cabinet had decided on the reorganization of the army, which represents the crowning of the military work pursued by the Republic for the last forty years. One occasion for the reorganization is the resignation of General V. Michael as commander-in-chief because of differences with his colleagues over the progress of fortifications. The superior council of war, composed of generals of the army, continue, but the vice-presidency, which was held by Michael, will be abolished. A chiefship of the general staff, carrying practically the supreme command in time of war, is created instead and General J. C. Joffre will be appointed to the latter post.

The superior council of national defense, which is presided over by the premier and composed of most of the ministers, remains with the addition of a permanent bureau of study, composed of three officers, one each from the departments of war, marine and colonies.

SITUATION RELIEVED.

LONDON, July 28.—The Moroccan simoom seemed less sultry today and it was generally conceded that Premier Asquith's statement had helped to clear the air and to some extent to ease the tension. It is the hope of the British government that the Algericas act has not been shown to be mere diplomatic patchwork, and that some more lasting settlement will be effected which will tranquilize the union situation as well as the Moroccan difficulty.

Premier Asquith's announcement that Great Britain had taken the least disposition to obstruct a Franco-German agreement in West Africa, it is hoped by the officials will dissipate the German belief that the British government is pursuing a policy of endeavor to thwart Germany's desires for territorial expansion.

It is considered a hopeful sign that King George is making definite arrangements to attend the Cowes regatta tomorrow while the members of the cabinet are preparing to leave town for the week-end.

REMAINS OF ILG GIRL DISCOVERED

Body of Young Woman Found in Driftwood On Beach Near Bolinas

(Continued From Page 1)

When Greenhie was convicted in this county he went under the name of James Bowen. He abandoned that name when he went to the penitentiary. He was convicted of breaking into one of the stores in Niles and was arrested by Constable Roderick. He received his sentence on December 20, 1907, after a trial which was presided over by Judge Melvin.

READY FOR ACTION.

Sheriff Barnes and the jailers declare that they treated Bowen, alias Greenhie, with the same consideration that they show other prisoners, and that if he even makes his appearance around the jail in a threatening manner he will have to hold himself responsible for the consequences.

Mrs. Gugenheim is resting comfortably at her home, 2227 Laguna street, San Francisco. She will probably be confined to her bed for some time, and as she gathers strength the doctor will make an examination to locate the bullet and, if necessary, will extract it.

Greenhie has been under surveillance by the authorities ever since he left prison, following a warning sent out by Warden Hoyle, who learned of the open threats the prisoner had made among his fellow convicts just before his release.

He said he was going to kill all of those responsible for his arrest and conviction in Alameda county and also even scores with the warden. Besides being identified by Peter Millet and J. Kelly, the cemetery employe, Greenhie was also recognized by J. A. McDonald, a contractor, as the man who fled from the cemetery after the shooting of Mrs. Gugenheim.

IDENTIFIES BODY.

William Ilg at once left San Francisco and, taking an auto at Sausalito, hurried in the direction of the ocean shore, only to encounter at a turn in the road the coroner's conveyance.

He stepped from the machine and by the aid of a flickering lantern looked up the disheveled form which he at once recognized as his sister. "It's she," he exclaimed, and then began to weep bitterly.

The suspense of the long wearying hunt was ended. Faint hope that his sister would return to her home alive became empty with one glance and he turned about to escort her remains into the town. Other members of the family were at once notified, though it was some time before the sister brother and sister, waiting at the home, could be convinced that the news was correct. The parents were greatly broken-hearted.

When found the body was fully dressed, including the close fitting blue tailor-made jacket. The hat was missing. Marks upon the features were attributed to the buffeting of the corpse upon the rocks, and it was the opinion of the officers that the girl had met with foul play but had thrown herself into the bay at the point of either the Alameda or Marin county shore, or from a ferry steamer, and that it had been carried out through the Golden Gate past the rocky heads by the currents and around into the shallow cove where it was found.

The theory is borne out by the fact well known among bay mariners that driftwood and other refuse carried from certain points of the bay are cast up in that vicinity.

THINK SHE WAS SLAIN.

However, the brothers and other members of the family, as well as R. H. Gripp, who was the dead girl's fiance, are loath to believe that Miss Ilg took her own life and assert that foul play of some sort had to do with her disappearance and death.

The cause of the woman's disappearance is still unexplained. The body bore no marks of violence, other than two broken teeth, which Deputy Coroner Keaton believes were caused by the rocks strewn along the North Bolinas coast. One sleeve of the jacket was torn. Keaton said he believed the young woman took her own life, but offered no grounds for his belief.

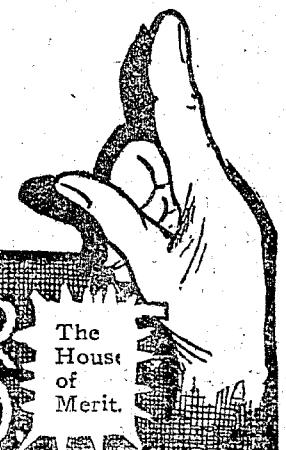

Miss Ilg, who was 28 years old, left her parents' home, saying she intended to secure tickets for a performance at a local theater. Her failure to return caused a search, extending through all the coast towns and cities, in which police and private detectives participated. No clue was found leading to either the whereabouts of the young woman or the cause for her leaving home.

She was engaged to marry R. H. Gripp, superintendent of the factory of a soap company, at West Berkeley, but Gripp could give the police no aid in their search. A reward of \$1,000, offered by relatives of the girl, failed to produce information and after nearly two weeks of searching nothing tangible had been discovered upon which to base even the guess as to the fate of the young woman.

Miss Anne Smith, a "beauty doctor," who treated Miss Ilg, said the girl had been caused some distress by blemishes on her face, but she was known to have been in good health and spirits, and this was not regarded as a probable cause of her disappearance.

STOMACH CATARRH PREVENT HERE

Nine Out of Ten San Franciscans Victims of Ill, Says Munyon

Stomach Trouble and Indigestion Common Result of Complaint

That San Francisco is the most catarrh ridden city in the United States was the statement made yesterday by Prof. J. M. Munyon, the Eastern health expert whose radical new ideas have created a furor of comment here. In an interview he said:

"Nine out of ten persons one meets in San Francisco are suffering from catarrh in some form or other. Catarrh of the head, catarrh of the stomach, catarrh of the bowels—they all come together and are equally prevalent. Catarrh is the most puzzling disease known to medical science. It is an inflammation of the mucous membrane that infects the air passages of the head, the mouth and throat, and also the stomach. No matter in what part of the body the disease is contracted the effect is the same—the formation of catarrhal mucus secretions which clog up the passages and give a chance for germs to breed. Catarrh of the head will almost invariably lead to catarrh of the stomach if neglected. It is safe to say that 60 per cent of the so called stomach trouble is catarrh of the stomach. This thick mucus forms in glue like shape in the stomach and prevents the proper digestion of food. Food fermenting and forming gas, causing intense pains in the abdomen, and frequently causes palpitation of the heart and shortness of breath. Headaches are usually due to improper digestion, and constipation nearly always accompanies a case of stomach trouble or catarrh of the stomach or intestines. I have found these diseases very prevalent in San Francisco, but I am glad to say that my methods have had the same wonderful success here in San Francisco that they have shown in the Eastern cities in which they have had their greatest success."

Munyon's method of treatment is "inhalation," that is, breathing in the air passages of the head and throat and also the stomach.

General sentiment among the Democratic representatives early in the day seemed to favor a compromise between the La Follette bill and the Senate and House wool bill along the lines of the 2 per cent ad valorem on raw wool. A Republican counter move to concur with the Senate bill was expected. This, however, would be overwhelmingly voted down by the House. The House Democrats are almost unanimous in the belief that a bill will be agreed upon in conference.

ADVISE PRESIDENT.

Senator Crane of Massachusetts, Representative Weeks of the same state and Representative Bartholdt of Missouri were among the men who advised the President to use the veto on any wool revision bill likely to come from the forthcoming conference. It was their belief that the Senate coalition of insurgents and Democrats was an attempt to put the President "in a hole" politically. Executive disapproval of a measure designed for such a purpose, they told the President, could not work to his discredit.

While the President himself maintains silence as to what course he will pursue if a wool revision bill is presented to him, the indications are stronger today that he will not hesitate to use the veto. This would put an end to all attempts to revise schedule K and would serve as a deterrent to revision of other schedules at this time.

Amid applause the House received today the new compromise wool bill from the Senate. No action was taken, the bill being laid on the speaker's table and the cotton tariff revision debate proceeded with.

WOMAN PIANO SELLER TO BE TRIED AUGUST 5

SAN FRANCISCO, July 28.—Mrs. Pearl Bank, who was arrested yesterday on complaint of Mrs. Anna Sebeck of 820 Shadrack street, on the ground of obtaining money under false pretenses, was tried in the Alameda County court this morning and her case put over until August 5. It is claimed that Mrs. Bank sold a piano on misrepresentation.

S. P. ISSUES NEW TIME SCHEDULE

Becomes Effective August 1, and Affects all Local Trains.

(Continued from Page 1.)

loop service, has been issued. The pocket time cards are not yet cut, and will not be ready for distribution until August 1.

The First street steam line to Fruitvale and Park street will run to Mastick station via Lincoln avenue, and then cross the Harrison-street bridge and go back to the Oakland mole, making an independent steam loop, the station and stopping point at Oakland mole. There will be no steam trains operated out of Alameda mole after Monday night.

NEW TIME CARD.

The running time of the trains is not materially changed, save that the swifter operation of the electric cars enables a faster start from point of beginning. For the earliest steam trains now leaves Alameda mole or High street two minutes earlier than will the electric loop trains, but the electric trains will arrive at the other stations at practically the same time as the old steam cars.

The present number of trains will be increased about four a day on the loop. On account of the trains running either way on the loop it will be possible for the passenger to get a train at any of the stations. We will wait 15 minutes for a longer ride, will be necessary, where the train is eastbound and has to cover the loop before heading back for Alameda mole.

The Oakland-Alameda Eighth-street line will not be put in operation until later, probably not until toward fall.

CHARGE MAN WITH SCHOOL BURGLARY

Mother-in-Law Admits That He Had Taken Flags, Pencils, Etc.

SEATTLE, July 28.—Percy G. Hawley, wanted by the police of Oakland, Cal., for a wagon ride through the country, and when his funds were exhausted, broke into a schoolhouse and stole everything in sight. Walter De Lano, alias Williams, was arrested at the Brooklyn hotel today by Detectives Regan and O'Connell. He will be sent to Tracy and probably charged with burglary.

According to his mother-in-law, Mrs. Sims, of 830 Folsom street, De Lano started out with his young wife, Flossie, when they went to the schoolhouse. Tracy, he pointed to the window, entered and began breaking his American flags, schoolbooks, rulers and pencils. According to Mrs. De Lano, this is the only crime committed on the trip, but her mother asserts that while he was working for a Market-street firm De Lano gave his wife articles which he had stolen.

VIBRATION OF GAS PLANT CAUSE OF DAMAGE SUIT

SAN FRANCISCO, July 28.—Joseph L. Schmitt brought suit for \$10,000 damages against the San Francisco Gas and Electric Company today for maintaining a nuisance. He asserts that tenants refused to stay in his group of flats on Bush street near Polk because of the vibration coming from the company's plant located nearby.

JAPALAC FULL STOCK

GRADUAL LOWERING OF TARIFF IS URGED

Newlands Says That His Proposed Reduction Is On a Scientific Basis

"SAFETY BRAKE" TO BE ATTACHED TO LAW

Amount of Foreign Imports to Decide Sums to Be Charged as Duty

WASHINGTON, July 28.—Commenting on the state of time and effort on the part of Congress in revising the tariff schedules, Senator Newlands of Nevada today urged on the Senate his amendment to the free list bill for an automatic reduction of prohibitory duties which would gradually bring them to a revenue basis.

His contention was that a general clause had been put in the law providing that whenever it appears that the importations of any and durable article have been for years preceding less than one-tenth of the total domestic production of similar articles, the duty shall be reduced at the rate of ten per cent per annum, until the importations shall equal one-tenth of domestic production, the reduction then to cease and the matter be referred to Congress for further action.

PROHIBITORY TARIFF.

Newlands urged that by this method a reduction of the excessive and prohibitory duties of the tariff would be accomplished without inviting a flood of foreign imports, and without disturbing American industries. He claimed that a large proportion of the duties of the existing tariff were prohibitory and were not revenue duties.

"The duties of Congress and its committees in the revision of the tariff," Newlands said, "would thus be very much lightened and the work of mere computation would be thrown upon the tariff board, which could ascertain the facts upon the existence of which the tariff reduction can be based. In this way a reduction can be accomplished which will excite no alarm, as the law itself will provide a safety brake and stop the reduction whenever the importations exceed a certain percentage."

"Such an amendment would not be recognition of the principle of protection by Democrats, if they concurred in it; it would simply be a recognition of the fact of protection, and would provide for a gradual change and reduction to a revenue basis without economic readjustment.

"Our industries are on stilts as the result of the high tariff, and it is wise at one blow to knock the stilts from under them, just as it would not be wise for a man who had climbed a high steeple and desires to come down to earth to jump down instead of climbing down. An automatic reduction of ten per cent a year would accomplish almost everything that is desired in the way of gradually establishing a revenue tariff."

Heat Wave Bears Death To Sweltering Paris

PARIS, July 28.—The capital suffered today from a renewal of the heat wave. A maximum temperature of 95 degrees in the shade was recorded. There were many prostrations and some deaths.

'PLENTY LORIMER COIN,' HINES QUOTED AS SAYING

Lawyer Repeats Alleged Conversation in Which Taft Is Said to Have Favored Election

WASHINGTON, July 28.—Testifying before the Senate Lorimer committee today, Alfred E. McCordic, a Chicago attorney, declared that Wirt H. Cook repeated to him the day it is alleged to have occurred, the conversation over the long distance telephone in which Edward Hines is said to have stated that Lorimer must be elected and he was going to Springfield "with all the money necessary."

Cook's testimony was that he overheard this conversation in Chicago and that the man at the Springfield end of the line was supposed to be Governor Deneen. McCordic is Cook's attorney. In detailing what Cook told him, on May 25 or 26, 1905, McCordic said:

"He said Mr. Hines had told the governor that he had just come from Washington, and that it was the desire of President Taft and Senator Aldrich that Lorimer should be elected and Hopkins defeated, and that he was prepared to furnish all necessary funds and would be down on the next train."

"As a matter of fact, are you not a promoter and a broker?" asked Counsel Haney in cross-examining.

"Oh, no," replied McCordic.

Other questions were asked which counsel explained were intended to show that McCordic had been connected with an attempt to make Hines buy certain stock from Cook and that the witness was prejudiced against Hines.

The multiplicity of indictments growing out of the so-called White confession was a subject to which counsel for Lorimer devoted much time in cross-examination of Detective Thomas McGuire.

McGuire told of an attempt to persuade George O. Glavas to turn over to James Keeley, general manager of the Chicago Tribune, the books for which Keeley claimed he had paid \$650 and which Glavas is alleged to have sold.

The detective, said Keeley, was not sure whether the books ever existed or whether they had been sold.

BARRETT MAY BE GUEST OF OAKLAND

Director-General Pan-American Union was Once Resident

President H. C. Capwell and Secretary A. A. Denison of the local chamber of commerce were the official representatives of that body at a banquet given by the San Francisco chamber of commerce last night at the Palace hotel in honor of John Barrett, director general of the Pan-American Union.

In the course of the remarks Barrett made at the banquet, he spoke very pleasantly of the time he spent in Oakland some twenty years ago, when a member of the faculty of the old Hopkins Academy. An effort is being made by Secretary Denison to secure Barrett to this city during his stay on the coast. If time permits him to come, Barrett will be taken on a tour of the city, under the auspices of the chamber of commerce.

WIFE SAYS HUSBAND TRIED TO KILL HER

SAN FRANCISCO, July 28.—Charging that her husband attempted to kill them both by turning on the gas April 15 last, Mrs. Rose M. Alexander filed suit for divorce against Walter C. Alexander this morning. The marriage of the couple took place in 1896 and the wife also asserts that her spouse has beaten her on several occasions.

SPOUSE SWORE, WIFE DECLARES

When Husband Started to Cuss She Had to Close the Windows.

Mrs. Sophie E. Cabanski has filed suit for divorce from her husband, Charles S. K. Cabanski, who, according to her allegation, has taken up his abode in Chicago.

She states that her husband, to whom she was married in November, 1901, has been guilty of habitual intemperance and treated her in an inhuman manner. She also declares that he has at times indulged in profane and obscene language in tones so loud that she was compelled to close the windows and doors of her home so as not to allow the vile words to be heard by the neighbors.

There are two children, Wilhelmina and Frederick S., for the custody of both of whom the wife petitions.

Admiral Togo and Staff To Visit New York City

NEW YORK, July 28.—A suite of one room in a Broadway hotel is being prepared today for the accommodation of Admiral Togo and his staff, who will arrive here next week to be the guests of the nation. The entire suite will be decorated after the Japanese fashion, while the parlors will bloom with Japanese flowers and dwarf trees.

THERE'S MEDAL FOR HANSEN--AND IT'S LEATHER

Rescues "Pal" From Watery Grave and Frees Chance Acquaintance

NOW HE'S IN JAIL FOR AIDING IN ESCAPE

Companion Fails to Prove Ability to Walk Upon the Water

Two heroic acts of self-sacrifice, by which two rescues were effected, and a charge of drunkenness stand upon the calendar as the claims to fame for Nick Hansen, able-bodied sailor of Scandinavian extraction, to a seat in the hall of fame and a Carnegie medal for bravery. By his fine courageous act he fished Yens Gustafson, his pal, from the prospect of a watery grave when the latter walked hilariously off the end of the Broadway wharf into the estuary.

His second deed of virtue was the rescue of Henry Maggers, charged with petty larceny, from the Oakland police court dock under the eyes of Police Judge George Samuels and Court Bailiff James Flynn. For these and other merits, Hansen claims credit and a leather medal.

The police do not look altogether with favor upon Hansen's activities, however, and as a result he is being held in the city prison pending guilty to the two resurrections. He pleaded guilty to the two rescues and to the charge of drunkenness this morning, and will be sentenced for all three tomorrow morning.

Hansen and Gustafson, the latter being a resident of 403 First street, San Francisco, started telling each other of exploits by land and sea, and as the telling was dry, they had recourse to various drink emporia to make the flow of anecdote freer. Finally Gustafson boasted of his ability as a magician, and stated that he could walk upon the water. The two repaired to the end of the Broadway wharf, where Gustafson facetiously offered to carry his companion across the estuary.

OFFER DECLINED.

The offer was declined, and Gustafson, to show his good faith, stepped gallantly off the end of the wharf. Contrary to his expectations, he sank with a splash into the dark waters of the estuary. The awkward situation did not disconcert Hansen, however. He peeled off his clothing and dived deftly into the waters. With some difficulty he brought the struggling Gustafson ashore.

Having pounded him cheerfully for a time, Hansen left his companion to seek other adventures, but the two were arrested within two blocks of each other about midnight last night for drunkenness.

Gustafson was suffering from an attack of the shivers when arrested, and had to be taken to the Reciving Hospital. When his case was called in Judge Mortimer Smith's court this morning, the situation was explained and the charge of drunkenness dismissed till they are dry.

Hansen had just commenced his career of heroism. This morning he was assigned to court No. 2, and in the dock sat beside Henry Maggers, charged with petty larceny. Hansen explained his desire to continue the rescue work, and there was a whispered conversation.

"Nick Hansen, charged with drunkenness, what is your plea?" called Clerk Ed Taibott.

"Gilty, but this is the first offense," responded Maggers from the cage.

"Case dismissed. Let the prisoner go," ordered Judge Samuels, and Maggers hastily left the court room and disappeared down Washington street.

Presently Maggers' name was called. Hansen rose in the dock and explained that Maggers had answered to his name, and had gone away, but that he, Hansen, wished to plead guilty of drunkenness.

Bailiff Flynn was sent after the fugitive, but he had made good his getaway. Hansen's case was put over to tomorrow, to consider whether it is worth while charging him with aiding in the escape of a prisoner.

When informed that he was not to be released immediately Hansen set up a wall of distress to the air:

"And I loose another chance to be a hero!"

BAILIFFS EAT UP ALL THE EVIDENCE

Crustaceans Disappear and the Court Room Janitors Are in Open Mutiny

SAN FRANCISCO, July 28.—There were some crabs in Judge Sullivan's court yesterday as evidence in a case on the dock, and they formed one of the most important features of the day's proceedings.

This morning they were in the court chambers and they were precipitated into somewhat serious war between the janitors and the bailiffs. Following the disposal of the case the bailiffs and several cronies proceeded to make a meal of the crabs, and when they had finished with them and some side dishes the room looked as though it were a kitchen instead of the dignified chambers of a jurist.

The janitors refused absolutely to put the room through a cleaning process, passing it up to the bailiffs, and they in turn averred that they were not hired for janitor's work. Judge Sullivan threatened to settle the matter by putting both parties to the combat in jail.

Frederick W. Taylor To Succeed Neson

WASHINGTON, July 28.—Frederick W. Taylor of Colorado has been appointed director of agriculture of the Philippines, to succeed George Neson, recently resigned, and will enter upon his duties early in October at headquarters in Manila.

Taylor was chief of the department of agriculture and horticulture at the St. Louis World's Fair, the Pan-American Exposition at Buffalo and the Trans-Mississippi Exposition at Omaha.

RUNS 50 FEET IN AGONY OF DEATH

A Restaurant Employee Almost Severed His Head with a Huge Knife

After almost severing his head from his body with a heavy carving knife, Prosper Dasque, a restaurant employee, ran in his death agony for over thirty feet through the hallways of a lodging house at 1021 Franklin street, before he dropped dead on the rear porch of the house. The body was discovered lying in a pool of blood by Louis Guiberteau, a draper of the lodging house, who stumbled over the remains in the darkness.

Inspectors W. J. Emigh and William Quigley were placed on the case, and at first thought that a murder had been committed. They were unable at first to locate the knife with which the man had killed himself. This was finally discovered under the bed in his room.

It is thought that Dasque cut his throat from ear to ear in his room, and then in an agony of death struggled and stumbled through the hallway of the house after throwing the knife from him so that it rolled under the bed.

The body was removed to the morgue. Nothing is known of the man's antecedents, and the cause of his action is not known. He was about 30 years of age.

CHAPLAIN SCOTT IS STEADILY IMPROVING

ALAMEDA, July 28.—Chaplain W. H. Scott, U. S. A., retired, who has been seriously ill, is improving daily and will be able to be out next week. Chaplain Scott has been confined to his bed for several weeks and has had the attendance of a physician and nurse. He has had a severe attack of la grippe.

According to the story told by the alleged victims, they contracted to sell apricots in this part of the country at \$60 per ton early in the spring, and now have been shown contracts with the original signatures, but the stipulated price changed to \$50. In this way, it is alleged, many growers were swindled.

MISS BROWN CAUSES STIR IN BOARD OF EDUCATION

Registers a Strong Protest to Appointment of Everett S. Brown as Teacher of Gymnastics in High School

"Will the Oakland high school turn out football players or students?" was the vital question placed before the local board of education last evening at the regular meeting by Miss Annie F. Brown, who objected to the appointment of Everett S. Brown as teacher of gymnastics in the Oakland high school, contending that he didn't have a certificate to carry on that study, but that he was only a history instructor and should not be paid by the board for teaching a branch in which he has no credentials.

Miss Brown voted against the proposition to retain Everett S. Brown as an instructor of athletics, contending that he was not qualified. He was recommended by the high school committee of the old board of education, headed by Dr. A. S. Kelly, who is now traveling in Europe. Calvin M. Orr also was a member of that committee and stated last evening that Charles E. Keyes, principal of the Oakland high school, also recommended Everett Brown for the position.

"In reality," said Miss Brown, "he was only the football coach, the boys of the school was getting a salary for services rendered in athletics. If the boys want a football coach I think they should pay for it and not the county. I want everything straight, and I'll not vote for anything that is not just, fair and square. I don't approve of using the county funds for a high school coach, and, in fact, I think it is against the rules of the high school to engage a professional coach."

RETAINS PLACE.

The question as to whether he should be retained as an instructor in the history department and a coach was placed before the members of the board by President Orr, and the vote favored retaining him in both capacities at a salary of \$1500 a year.

Wallace Newlin, a graduate of the University of California, was elected a teacher in mathematics in the Oakland high school for a period of six months.

The resignations of Miss Alice Withington, Annette B. Minnow, Alice O'Connell, Miss Renwick and Henrietta Wade were accepted. Leaves of absence were granted Anna V. Kling and Florence D. Soule.

The board voted to engage an expert to supervise the work in the new school buildings to be erected. The matter of the selection of the supervisor was referred to the buildings, sites and equipment committee.

WANT OPEN AIR SCHOOL.

A delegation of representatives from the Santa Fe Improvement Club, headed by L. C. Levy and W. S. Shaw, petitioned for an open air school at Fifty-fourth and Market streets. The board took

FIND HAYWARD CONTRACTOR DEAD

T. H. Robinson's Body Discov-
ered by His Sister-
in-Law

HAYWARD, July 28.—T. H. Robinson, contractor and builder residing here, was found dead on the floor of his work shop at his home on Hayward Hill yesterday by his sister-in-law, Mrs. L. M. Alderman. It is believed that heart failure caused death.

Robinson had been complaining of not feeling well for several days but his indisposition was not thought to be serious.

Mrs. T. H. Robinson, the deceased's wife, has been an invalid for some time past and the suddenness of her husband's death was such a shock that she is now in a serious condition.

Robinson's body has been removed to the local morgue and an inquest will be held next Monday.

Robinson is survived by his father and mother, besides his wife, who have been living in their home for several years. He was 65 years old and a native of Indiana. The family moved here seven years ago.

HAYWARD FORESTERS

INSTALL NEW OFFICERS

HAYWARD, July 28.—In the presence of a large gathering of members of the local court and visitors from the Oakland and San Lorenzo courts, the Hayward Court, No. 78, Foresters of America, last night installed its officers for the ensuing year in the Native Sons' Hall.

The hall was decorated in the colors of the order and the installation rites were followed by a smoker. Dr. G. E. Reynolds acted as installation officer. The following officers were seated:

Town Trustee, Arthur Marter, chief ranger; Al A. DeMello, sub-chief ranger; William Cosa, senior woodward; George Rose, junior woodward; Louis Silver, senior beadle; Thomas Duarte, junior beadle; Joseph I. Vargas, lecturer; R. Reid, treasurer; R. A. Kolze, financial secretary; Frank Ainsdale Jr., recording secretary; Dr. G. E. Reynolds, court physician; trustees, R. T. Lewis, J. R. Coelho and Joseph Silver.

Preliminary arrangements have been made for the initiation of a number of candidates next Thursday evening, which will be followed by an elaborate banquet.

FOR THE STOMACH

Here's an Offer You Should
Not Overlook.

Rexall Dyspepsia Tablets remedy stomach troubles by supplying the one element, the absence of which in the gastric juices causes indigestion and dyspepsia. They aid the stomach to digest food and to quickly convert it into rich red blood and material necessary for overcoming natural body waste.

Carry a package of Rexall Dyspepsia Tablets in your vest pocket or keep them in your room. Take one after each heavy meal and indigestion will not bother you. We know what Rexall Dyspepsia Tablets are and what they will do. We guarantee them to relieve indigestion and dyspepsia. If they fail we will refund your money. Three sizes: 25c, 50c and \$1.00. Remember, you can obtain Rexall Remedies only at The Owl Drug Co., Inc., 10th and Washington, 13th and Broadway, 10th and San Pablo.

PLAN TO DREDGE INNER HARBOR

Engineer Miller Estimates That
Work at Richmond Will
Cost \$848,000

RICHMOND, July 28.—The Richmond Industrial Commission is actively working upon ways and means for the construction of this city's deep water inner harbor. The most prominent citizens of Richmond have taken up the project and have approved a plan to bond the municipality to raise the sum necessary to carry on the work.

At the commission's last meeting the members listened to a report by Civil Engineer M. X. Miller, who has been engaged to prepare an estimate of cost for the construction of a suitable harbor. This report states that an excellent harbor could be constructed at a cost of \$848,000.

Miller's plan provides for a twenty-foot depth of water. This, it is averred, would answer all demands of the near future. It is the object of the projectors to ultimately dredge to a depth of thirty feet. The plan also provides for the construction of a breakwater from the end of Brooklyn Island due north to the mainland, a distance of 6000 feet, together with the acquisition and reclamation of about 300 acres of tidal lands adjacent to said wall; the dredging of a channel to deep water to be 300 feet wide and 300 feet long, also a basin of the same depth; the construction of a rock wall 8300 feet in length west of the proposed channel to protect the channel, and the ultimate construction of a system of wharves to project from the first mentioned rock wall.

PYTHIAN SISTERS INSTALL OFFICERS

Ceremonies Conducted by Dis-
trict Deputy Grand Chief
Mrs. Swartout

RICHMOND, July 28.—Unity Temple, No. 86, Pythian Sisters, installed new officers at its regular meeting of Wednesday night in Bank hall, the ceremonies being conducted by District Deputy Grand Chief Mrs. Lulu Swartout. The newly installed officers are:

Past chief—Mary Codegila.

Most excellent chief—Mary Donnelly.

Excellent senior—Gertrude Vance.

Excellent junior—Linda Epstein.

Manager—Mollie Adams.

Mistress of records and correspondence—Lulu Swartout.

Mistress of finance—Louise Timmons.

Protector—L. Epstein.

Guard of outer temple—Mary Lucas.

Following the installation the members

of Unity Temple presented the grand

chief, Cora B. Langridge, of Oakland, who was present, with a handsome cut-

glass bowl.

Dora Davis of Calanthe Temple, No. 6,

and Mary Williams of Kansas City, Mo., who assisted with the installation cere-

mories, were each presented with a Richmon

sovenir spoon by Mrs. Swartout,

while the past chief, Mary Codegila,

was presented with a past chief's pin

and a solid gold eyeglass chain.

In addition to the local lodge members

present, about thirty delegates came from

Oakland and Fruitvale, making the trip

by automobile.

PETALUMA GIRL IS
BRIDE OF MERCHANT

MISS FLORENCE MORAN
IS BRIDE OF O. I. DALEY

PETALUMA, July 28.—At the home of Mr. and Mrs. D. Pometti their daughter Florence was given in marriage to Caesar Anderson, a well known young commission merchant.

The Rev. Father M. M. O'Shea was the officiating priest and the couple were attended by Miss Mary Lepori of Napa and O. V. Nichols. A reception followed the ceremony.

The bride is the only daughter of Mr. and Mrs. Pometti and is pretty and talented. The groom is a son of J. Anderson, a prominent commission merchant of San Francisco. They will reside in Petaluma.

WOMEN ARE INJURED.

BURLINGAME, July 28.—After months of delay Ansel Easton has succeeded in securing a street car franchise from the board of trustees, which will enable him to operate a line from the United Railroads westerly through the streets of Easton. Easton bid \$100 for the franchise.

JAPAN AND RUSSIA QUARREL OVER SEIZURE

Difference May Result in De-laying Consummation of Seal Treaty.

MIKADO'S SHIP IS CAPTURED BY CZAR

Nipponese Claim Vessel Was
on High Seas Beyond
Marine League Line.

WASHINGTON, July 28.—The issue between Japan and Russia over the seizure of a Japanese fishing and sealing vessel by the Russian authorities, on the Siberian coast, may, it is feared, endanger the consummation of the recently negotiated seal treaty.

The Japanese assertion is that the vessel was seized far beyond the marine league distance from the Russian shore line, which marks territorial jurisdiction.

It is understood here that the Russian government some months ago sought to extend its territorial rights to a distance of thirty miles from the shore line. The Japanese government refused to recognize this extension.

So far, no official notice of this Russian claim to jurisdiction over the high seas has been received in Washington, and consequently the State Department officials are unwilling to indicate what action they would take in the matter. It is recalled here, however, that the American claim to jurisdiction over Beiring sea was rejected by the Paris arbitration. Included in the American case was a ukase by the Russian emperor claiming jurisdiction for one hundred miles off the Alaskan coast, which also fell with the broader American claim. As this international arbitration apparently settled affirmatively and for all time the binding force of the old rule that no nation can assert its exclusive control to the sea more than one marine league beyond the shore line, the basis of the recent Russian decree cannot be conjectured.

RENUMINATION OF TAFT UNCERTAIN

Man With 'Wounded Feelings'
Tells President He Will
Not Support Him.

WASHINGTON, July 28.—Notice has been served on President Taft by a man in the middle west whose name was not divulged, that he had lost the support of the state at least one dozen times. The man recently was refused a postoffice appointment. He wrote to the President as follows:

"I am seriously wounded in my feelings, and unless I get restitution and satisfaction in some way from you, I now feel that I will withdraw my individual support and influence, as far as it goes, from you and give it to Senator La Follette, who is representing the other faction of the party today. I will certainly do all I can to carry the vote for him in the next Republican convention. I do not wish to be vindictive, but secretly feel that I am cast upon."

MUCKRACKERS MIX IN CUBAN AFFAIRS

Accuse President's Secretary
of Graft and Force His
Resignation.

HAVANA, July 28.—Senor Pasalodos, secretary to President Gomez, has resigned ostensibly for the purpose of resuming his duties as registrar of deeds at Cienfuegos. The actual reason for his resignation is believed to be the persistent attacks of the newspaper "El Dia," which has charged Senor Pasalodos with numerous delinquencies, including the entrance at the custom house free of duty of goods for his own use. In this practice, the paper alleges, the president of the republic participated. Senor Pasalodos is the second member of the entourage of the president to resign under fire, the other being General Orlando Nodarse, director of the national lottery.

WEDDING TO FOLLOW ROMANCE AT STANFORD

STANFORD UNIVERSITY, July 28.—Miss Adele Ehrenberg, a junior, will be married to the lawyer Frank Jewel Macomber, a young lawyer who recently graduated from Stanford, in Alameda next Wednesday evening at the bride's home.

Since her debut Miss Ehrenberg has been one of the most popular members of the younger society, and during her three years at Stanford she was a prominent member of the Alpha Omicron Pi sorority.

Macomber was a member of the Kappa Sigma Fraternity, Hammer and Club Honor Society.

In the fall of 1908 Macomber and Miss Ehrenberg, then a freshman, first met, and it was a case of love at first sight.

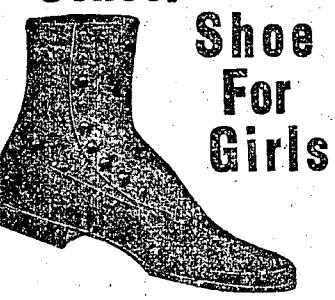

The young couple will go East on their honeymoon trip, where they will visit the groom's parents at Lewisia. They will reside in Los Angeles.

ANNOUNCE MEMBERS OF VENEZUELAN CABINET

CARACAS, Venezuela, July 28.—The membership of the cabinet as reorganized following the adjournment of Congress, as announced in the official decree. General V. Marquez, Minister of Education, becomes governor of the federal district. Dr. Agustín Iturbe assumes the portfolio of public works, and Dr. José Gifford of that of education. The other ministers retain the posts they have recently held.

WOMAN DIES OF BROKEN HEART

Alleged Fraudulent Mining Deal
Said to Have Stripped Her
of Fortune.

That Mrs. Ellen Gleason, an aged woman of this city who died in the county hospital on May 3 last was indirectly a victim of A. E. Williams, now held in the city prison with bail fixed at \$4,000, who, along with a notorious fake mining company, has come to light in the proceedings for administration of her estate. At one time Mrs. Gleason was worth \$12,000, it is claimed, and of that sum she lost \$5,000 in a bad loan. The remaining \$7,000, Williams is believed to have secured through his stock selling schemes.

After her small fortune was taken from her, the aged woman sought relief at the county infirmary except for a short time when she was able to exist on small sums supplied by the person who had borrowed the first \$5,000 and who afterward failed in business.

Brokenearted, she took up her abode at the infirmary and rapidly declined in health and spirits until death relieved her. The deal by which she lost her competency is alleged to have been the fraudulent transfer of what is known as the General Grant mine in Calaveras county controlled by Mrs. Anna Glud, of 104½ Oak street as trustee. Mrs. Glud sold the mine to the Williams "company," which later mortgaged it to Mrs. Gleason for \$7,000. Interest at the rate of 12 per cent is said to have been paid for some time but when that ceased the aged woman was left destitute.

G. A. R. MEMBERS WILL
SOON LEAVE FOR EAST

SAN FRANCISCO, July 28.—The local members of the G. A. R. who will attend the annual encampment at Rochester, N. Y., commanding Monday, August 21, will leave this city by special train on Wednesday, August 16.

This train will be routed via the Southern Pacific, Union Pacific, Illinois Central, Michigan Central and New York Central railroads to Rochester which will be reached on Sunday, August 20.

This arrangement, besides giving the veterans an opportunity to view all the scenic wonders of these different routes, will allow them several hours at Niagara Falls.

This is the forty-fifth encampment, and to many it will be their last, as the answer to roll-call California will, as usual, send a big delegation this year, and a limited effort will be made to carry the encampment by storm, and secure for Los Angeles the forty-sixth encampment in 1912.

VICTIM OF FRENZIED
HINDU DIES OF WOUND

CHICAGO, July 28.—Archibald Hunt, a contractor, who, with seven others, was shot Wednesday by Mohammed Housain, a frenzied Hindu while walking down Clark street, died early today of loss of blood following the amputation of his leg.

A charge of assault against Housain will be changed to one of murder to-day.

MISS MARIE HAGGERTY OF SACRAMENTO CHOSEN AT CONVENTION

SAN FRANCISCO, July 28.—The members of the Young Ladies' Institute, now in session here, yesterday chose Miss Marie Haggerty of Sacramento as president for the coming two years. Miss Haggerty has been the first vice-president of the organization. She succeeds Miss Mary Sullivan of San Jose.

At the morning session the question of regalia for grand officials and of holding joint meetings with the Young Men's Institute, were discussed.

Marinez Institute was announced as the latest branch of the Institute. The delegates voted to establish a new organization at Concord.

ORGANIC CELL" IS
SUBJECT OF LECTURE

Wednesday afternoon the second of a series of health lectures was given in the parlors of the Manheim Sanitarium, 470 Twenty-eighth street, by Dr. Harriett S. Maxson. The subject "The Organic Cell and Its Normal Function in the Human Body" was handled in a manner both interesting and instructive. The microscopic demonstration was conducted by Dr. Todd of the College of Physicians and Surgeons.

HANNA TELLS ABOUT LOW FINANCE

Says Cost Less Than Postage Stamp to Float T. C. and I. Syndicate

Informs Steel Trust Probers That Morgan Had No Hand in the Project

NEW YORK, July 28.—That the financing of the Tennessee Coal and Iron Company syndicate in 1905 did not cost as much as a postage stamp was the declaration made today by L. C. Hanna of Cleveland before the Stanley steel trust investigation committee. Mr. Hanna, who was a manager of that syndicate before the company was absorbed by the United States Steel Corporation in 1907, also stated that the main purpose of the men who took over the Tennessee company in competition with the steel corporation, was to develop the great mineral resources rather than the mechanical equipment of the property.

"In the organization of that syndicate," Mr. Hanna asked, "did you employ Mr. Morgan or any other financial syndicate to float your bonds?"

COST WAS NAUGHT.

"The financing of the Tennessee company did not cost as much as a postage stamp," Mr. Hanna said. "There were no bankers employed."

"Did you ever get an order for steel rails from Mr. Harriman?" asked the chairman.

"Yes," Mr. Hanna replied. "Mr. Harriman gave us an order for 157,500 tons of steel rails."

"How long was it after Harriman gave you this order," asked Mr. Stanley, "till you learned that your company was in trouble in Wall street?"

"I don't remember exactly, but think it was several months."

STOCK SALE AGREEMENT.

The Tennessee Coal and Iron syndicate was formed, Mr. Hanna thought, about November, 1905. In the original purchase of its stock he had 10,000 shares. The witness said the stock of the syndicate had been placed in the hands of the managers with an agreement that it should not be sold below par, the agreement which John W. Gates explained to the committee some time before.

"Was the purpose of that agreement to make the sale earlier or to prevent it?" asked Mr. Stanley.

"To prevent it, and there never was any official effort made to dispose of the stock until the panic of 1907."

At the time of the sale Mr. Hanna said there were 220,000 shares of Tennessee stock. He was asked about the financial condition of the chief members of the syndicate at the time of the sale, and said they were all regarded as sound.

CONSIDERED "PEG STOCK."

"When did you first learn the syndicate was in danger of losing control of the Tennessee company?"

"On Sunday morning before the sale Mr. Schley called me on the telephone."

The witness said that banks holding considerable Tennessee collateral were in trouble and were demanding additional collateral. He said the Tennessee stock was regarded in Wall street as "peg stock" because it was controlled by a syndicate and tied up for a fixed period.

Its nominal value was about 120 to 130.

Details of the sale as fully described previously during the inquiry were repeated by Mr. Hanna at some length.

During the hearing Norman B. Ream, a director of the United States Steel corporation, arrived in the committee room. He will be a witness later.

TELLS OF MORGAN CONFERENCE.

Lewis Cass Ledyard, counsel for Oliver Payne, a member of the Tennessee syndicate, it was announced, will be a witness tomorrow.

Mr. Hanna related the story of the conference held in J. Pierpont Morgan's library, where the merger was effected after Judge Gary and Henry C. Frick returned from their hurried trip to Washington to get the approval of President Roosevelt to the transaction. In response to questions, by Representative Gardner, Mr. Hanna stated that since the United States Steel corporation took over the Tennessee Coal and Iron Company and its vast interests no competing steel companies had been organized in the United States.

TWO TUNNELS WILL BE RUN AT ONCE

Work On the Twin Peaks and Stockton Street Bores Soon to Start

SAN FRANCISCO, July 28.—In order to expedite the matter of preparing the way for the construction of tunnels under Twin Peaks and under Stockton street, the board of supervisors on Monday will be asked to adopt a resolution calling upon the city engineer to furnish at once a plan for assessment districts, boundaries etc., covering the construction of both tunnels.

The resolution which the board is asked to adopt was passed by the street committee yesterday and is as follows: one of similar wording applying to Twin Peaks:

RESOLUTION'S TEXT.

"Resolved, That the city engineer be, and he is hereby requested to furnish to the board of supervisors a general description of a tunnel to be constructed in Stockton street, so as to facilitate traffic between the district north of Sacramento street and the district south of Sutter street, and to recommend to said board the exterior boundaries of a district or districts the land within which will be benefited by such tunnel construction, and which could be assessed to pay the cost thereof, also the description of any land that will be damaged by such construction."

It was stated to the committee that there was not a single property owner objecting to the proposed tunnels in the assessment district plan, at least so far as Twin Peaks, the greater

FRENCH TAKES STAND IN HIS OWN DEFENSE

Refutes Charge of Inefficiency Brought During Investigation at Blind School

BERKELEY, July 28.—Richard S. French, chief instructor in the blind department, defended himself on the witness stand this morning against charges of inefficiency brought against him by Miss Mary Eastman early in the investigation at the California institution for the deaf and the blind.

French, who is a graduate of the University of California, stated that he had obtained his position at the institution through the recommendation of Professor A. Lange of the State university. Relative to the accusation of Miss Eastman that he was not a good disciplinarian, he declared that he believed that he had good success in this part of the work. In answer to Miss Eastman's charge that the grading in the blind department was not thorough, French stated that he had begun the work of establishing grades early in his connection with the institution.

He declared that Miss Eastman had not cooperated with him about the lack of equipment in the blind department. Miss Eastman, he said, had not co-operated with him or the other teachers during recent years.

OPPOSES WILKINSON.

French stated that he was opposed to former principal Wilkinson's idea that there should be no manual training in the institution. He strongly urged the establishment of this work, he said, as well as advocating teachers' meetings and a revised schedule of studies. He had also corrected the habit of the blind pupils in lounging on a bench in the classroom.

Principal Keith, said the witness, had promoted social life among the pupils and instructors by inviting them to Sunday musicals at his home. Although there is no religious instruction at the insti-

tution, he said, that he was required to spend the entire day in supervision of the work now, while under the former regime he spent two hours each afternoon.

LATEST NEWS FROM OUTSIDE TOWNS

OAKLANDERS TO VISIT PLEASANTON

Members of Porter Lodge of Odd Fellows to Pay a Fraternal Call

PLEASANTON, July 28.—A fraternal visit from Porter Lodge, No. 272, I. O. O. F., of Oakland, will be made to the local lodges next Saturday evening for the purpose of conferring the second and third degree.

Elaborate arrangements are being prepared for the reception of the visitors, among whom will be many of high degree in the organization, and a series of them will bring the Oakland lodgemem to this place. Other neighboring lodges will also send representatives to take part in the ceremonies. About 175 are expected from Oakland.

ORCHARD LANDS FIND PURCHASERS

Many Sales Made in the Fruit Growing Districts of the County

HAYWARD, July 28.—Deals aggregating nearly \$20,000 worth of acreage in the Cherryland tract have been concluded within the past two weeks and transactions involving a like amount are now pending, according to the reports of promoters of the Cherryland section.

Among the recent purchasers of this property are Mr. Abraham of the Leckie-Abram Title Company, four acres; W. S. Newman, six acres; L. S. Dahnsgard, of Hayward, one acre; George P. Alcott, auditor of the George H. Tay Company of San Francisco.

All the purchasers have announced their intention of improving their holdings within a short time and it is likely that before next spring a number of new homes will be completed on the tract.

The plans for the magnificent home to be built for F. H. Burr on his Cherryland holdings are now in the hands of local contractors, who are preparing bids. Construction work will commence within a month.

ST. FRANCIS BENEVOLENT SOCIETY GIVES PARTY

FRUITVALE, July 28.—The St. Francis Benevolent Society of Fruitvale held a whist party Wednesday night in the S. J. S. gymnasium for the benefit of Franciscan missions in China.

A. J. Miller, secretary of the local society, received a communication some time ago from Rev. Father P. W. Wolfgang, who stated that 40 Chinese orphans suffering from the recent famine in China had been placed under his charge and that there were no available funds for their support. The local society was appealed to for aid and one of the methods for raising of funds was the party given last night.

Further efforts will be made to swell the fund.

**Why Not
Have Strong
Nerves?**

There is absolutely no way of reaching the nerves with medicine except through the blood. The nerves receive all of their nourishment and support from the blood which, under healthful conditions, carries the elements needed to rebuild wasted nerve tissue.

Let the blood become deranged and deficient in these elements and the nerves will be badly nourished and headaches, neuralgia, sciatica, functional paralysis and a host of other nervous troubles may result.

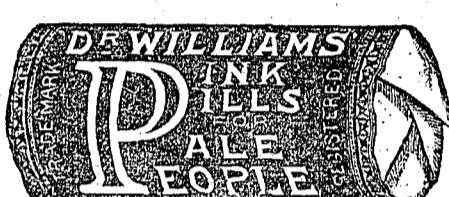

There is, therefore, no mystery about the fact that Dr. Williams' Pink Pills for Pale People are both a blood builder and a nerve tonic, nothing unrecognized by science in the power of these pills to cure severe nervous disorders as well as diseases of the blood. Dr. Williams' Pink Pills are a specific for anaemia, or deficiency of the blood. Hence they are a remedy for all nervous diseases which result from, or thrive under, anaemic conditions.

Mrs. Frances Clark, a dressmaker, of No. 1620-B Howard street, San Francisco, Cal., says: "I suffered for about three years with nervous debility. My stomach was quite bad and I was pale and somewhat run down. I was not able to work steadily. A friend urged me to take Dr. Williams' Pink Pills for Pale People and upon doing so I felt much better from the start. I took them for several weeks and gained ten pounds in weight and am able to work every day. I have recommended Dr. Williams' Pink Pills to many of my friends and always with good results."

The tonic treatment with Dr. Williams' Pink Pills by building up the blood so that it can nourish and strengthen the weakened nervous system has made hundreds of cures in the most severe nervous disorders. This record of cures should merit a trial, for the remedy which is guaranteed free from opiates and is entirely harmless.

If you are interested send today for our booklet, "Nervous Disorders—A Method of Home Treatment." It is free.

Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50 cents per box; six boxes, \$2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

'VETS' HAPPY, SAY U. S. OFFICIALS DENIES THAT SHE DISTURBED PEACE

Report Branded Untrue Charge That Old Soldiers Are Ill-Treated.

WASHINGTON, July 28.—A long report branding as false in every particular the charges that 50,000 disabled volunteer soldiers of the Civil and Spanish wars in the National Soldiers' Homes in various parts of the country received neglectful and inhuman treatment, was made public today by President Taft.

The report is from J. W. Wadsworth, president of the board of managers of the national homes. General Wadsworth says the old soldiers in general are contented and enjoy such a degree of happiness as is permitted by their disabilities and unavoidable separation from relatives.

The charges were brought to the attention of President Taft by the United Spanish War veterans at their Poughkeepsie, N. Y., encampment, and he immediately instituted an investigation.

PHYSICIAN ADVISES CUTICURA REMEDIES

For Eczema, Patient's Wrist and Shin Itched Like Poison. Scratched Until They Bleed, Says: "Cuticura Soap and Ointment Cured Me."

"Four years ago I had places break out on my wrist and on my shin which would itch and burn by spells, and scratching them would not seem to give any relief. When the trouble first began, my wrist and shin itched like poison. I would scratch those places until they would bleed before I could get any relief. The places would swell, and the flesh underneath would look red and feverish. Sometimes it would begin to itch until it would waken me from my sleep, and I would have to go through the scratching ordeal again."

"I consulted our physician in regard to it, and he said, 'I don't know what to do.' I used an ointment which the doctor gave me, but it did no good. Then he advised me to try the Cuticura Remedies. As this trouble has been in our family for years, and is considered hereditary, I felt anxious to try to head it off. I got the Cuticura Soap, Ointment and Pills, and they seemed to do just what I needed."

"The doctor was making great headway in my system until I got the Cuticura Remedies which have cleared my skin of the great pest. From the time the eczema healed four years ago, until now, I have never felt any of its pest, and I am thankful to the Cuticura Soap and Ointment which certainly cured me. I always use the Cuticura Soap and Ointment, and I hope other sufferers from skin disease will use the Cuticura Soap and Ointment." (Signed) Irvin Hutchison, Three Rivers, Mich., Mar. 16, 1911.

Although Cuticura Soap and Ointment are sold throughout the world, a liberal sample of each, with 32-p. book on the skin and scalp will be sent free, on application to Poter Drug & Chem. Corp., Dept. 17A, Boston.

Woman Says She Merely Gazed at "Man Who Broke Up My Home."

SAN FRANCISCO, July 28.—Mrs. Frances B. Bracken, residing at the Curtiss Apartments, Leavenworth and Bush streets, the divorced wife of J. O. Bracken, of the J. O. Bracken company, traffic agents, with offices in the Pacific building, appeared on a citation yesterday before Assistant Bond and Warrant Clerk J. A. Rock to show cause why she should not be arrested on a charge of disturbing the peace.

Application for a warrant for Mrs. Bracken was made by George Baker, in charge of the offices during the absence in Tokyo of O. Bracken. He stated that Mrs. Bracken visited the office last Tuesday for the purpose of collecting her monthly alimony of \$60, and there created a disturbance by lifting her voice and declaring that she had come not so much for the purpose of collecting alimony, as to explain to his customers just what kind of a man her former husband was in her estimation.

DENIES STORY.

After Baker, accompanied by his attorney, Walter Thompson, had told his story, Mrs. Bracken, clad in silver gray, said to Rock:

"I did not make any disturbance at all. I simply went to the office and seeing Mrs. Baker, I said, 'I have come down here to look at the man who broke up my home.' It was Mr. Baker, you know who introduced to me my husband Miss Nellie Bank, and my troubles began with that introduction."

Rock advised Mrs. Bracken to keep away from the offices in the Pacific building, inasmuch as she was divorced from Bracken.

This she promised to do and no warrant was issued.

WORKMEN'S PAY BILL UPHELD BY COURT

BOSTON, July 28.—The Massachusetts Supreme Court has advised the legislature that the workingmen's compensation bill is constitutional under the laws of Massachusetts. The bill provides that if an employee is injured and sues for damages, the employer cannot set up as a defense that the victim suffered from his own negligence or that of a fellow workman.

ACCUSED OF BIG SWINDLE.

MUSKEGON, July 28.—Edmund Mayor, who claims to represent the Metropolitan Manufacturing Company of Brussels, Belgium, was arrested here yesterday on suspicion of being one of the men said to be known to the steel trade as the "Two French swindlers" and for whom a \$50,000 reward is offered by the Swedish Iron and Steel Company of New York and New Orleans.

The woman was sprinkling her lawn. The bandit was seen to enter the house, remain a few minutes and depart hurriedly in his machine.

Mrs. Krahn, alarmed by the noise, entered the house to find her bedroom robbed of money and her son unconscious from a blow inflicted by the robber.

SEATTLE, Wash., July 28.—Outlying residence districts of this city are living in terror of a daylight bandit, who operates with the aid of a red rumabout motor car and a companion. Five robberies are credited to him on the police records during the past week. Late Wednesday he appeared for the second time in five days at the residence of Mrs. Krahm, 518 Twenty-third avenue.

The woman was sprinkling her lawn. The bandit was seen to enter the house, remain a few minutes and depart hurriedly in his machine.

Mrs. Krahn, alarmed by the noise, entered the house to find her bedroom robbed of money and her son unconscious from a blow inflicted by the robber.

WORLD SEARCHED FOR TREASURES OF DELGER'S CITY ACQUIRES RARE TREES, SHRUBS AND FLOWERS

Oakland Parks to Be Beautified When Gift Is Accepted

The trees, shrubs and flowers which for more than a generation have delighted the members of the family of the late E. Delger, a wealthy land owner of this city, on the spacious grounds fronting on Telegraph Avenue, between Thirteenth and Washington Streets, extending them westerly for a distance of between 350 and 400 feet, are to greet the eyes of the public.

The tender of them to the city commissioners will be accepted, and before long they will be incorporated with the floral clusters which characterize the parterres of the public parks of Oakland.

During all the years in which a fortune has been expended in the collection and maintenance of this assemblage of botanical gems they have been denied the enjoyment of the people of this city.

Everything within this inclosure at the intersection referred to, including the home itself which on occasion was the scene of social gaiety, has been offered the city and now remains with the commissioners to determine as to how much of the personal property will be accepted. Whatever the commissioners and park commissioners decide cannot be made available will be left to the disposal of. The property is to be converted into business sites and the walks, drives, trees, flowers, arbors, aviaries, groves, ponds and fountains, are to be come things of the past.

GROUND A PARK.

The grounds around the old Delger home are a park in themselves. More than that, they are supplied with features other than flowers to delight the lover of nature. There is a large open park thickly studded with trees in which the larger animals had ample space in which to roam at leisure and in which also, in severe weather, they might find shelter from the elements.

There is also an aviary which was once musical with birds. "There is a pond, the waters of which sparkle in a pond, nearly thirty feet in diameter. The top is to be removed so that a perfect aquarium in the State, with cement bottom which in the days of the founder of the Delger family, was filled with some of the rarest specimens of the finny tribe.

In these beautiful inhabitants of the inland waters alone there was a prince's ransom expended. The attractiveness of the home has been intensified by a rock which represented the interior of the grotto of Antiparos. It is really without superior in this part of the country. The arched arches made of natural rock studied with stereopticon views, the various seasons of the year through painted ferns, trickled water in effect from mountain streams.

It is doubtful, however, if the old home of the Delger family can be utilized. While it was built many years ago, it is still in good condition, but there seems to be some doubt that the city could find use for it in the present plan of a city that would warrant the expenditure of money to pay for its removal. For that reason it is believed that the former home of the well known family will fall into the hands of wreckers.

INSPECTOR COMMITS FRAUDS.
WINNIPEG, July 28.—Charles Thomas, a Dominion government grain inspector here, is under arrest charged with wholesale thefts from Canadian Pacific freight cars. Many tons of goods were found in his possession.

The course of study in the local schools this term provides for the purchase of a state fourth reader in the low fifth grade, and the fifth reader in the low sixth grade.

According to a circular issued by Superintendent of Schools McClymonds, the boys and girls who wish to study music are asked to buy the Melodic series. A pupil who has commenced music in the Melodic series must not be required to have the Harmonic series unless he has been promoted to a class using that book.

Next Monday and Tuesday the teachers will receive all pupils who apply, providing they live in the district in which the school is located.

The teachers have been instructed not to turn away any pupils during the first and second schools, even if the classes contain fifty or more students.

Principals of the schools, including high and grammar, have been advised not to enroll any non-resident pupils without an order from the superintendent of schools.

All the rules of the board of education will be carried out to the letter.

L. J. WILDE TO FACE ACCUSATION

Governor Johnson Orders the
Extradition of Accused
Embezzler

SAN FRANCISCO, July 28.—Governor Johnson announced last evening that he would sign the extradition writ asked for by the state of Oregon in the case of Louis J. Wilde, charged with embezzlement in connection with the failure of the Oregon Trust and Savings Company. The decision was unexpected, as last Saturday at a conference held at his office in the Mills building Johnson said that he had been advised by Attorney General Webb that the facts stated in the complaint against Wilde did not constitute a crime. After this hearing District Attorney Cameron of Multnomah county, Oregon, conferred again with Webb, presenting additional facts in support of the charge.

READY TO FACE CHARGES.

SAN DIEGO, July 29.—Louis J. Wilde, who is to be extradited to Oregon, in an interview shortly after midnight, said:

"I have no fault to find with my returning to Portland, if it pleased our governor and the better element of Oregon that I should vindicate myself."

"I have no fault to find with the courteous treatment accorded me by the officials of Oregon, as they have permitted me on my word of honor to meet them in San Francisco on Monday morning next, and I shall leave here on Saturday for that purpose."

DAVID UPRIGHT BACK FROM LONG JOURNEY

David Upright, one of the youngest commercial travelers in the West, has returned to his home, 59 Argar street, after an absence of several months, during which time he visited in the East and South. He spent several days on his return with his grandparents, Mr. and Mrs. M. Upright, of Dalton avenue, Los Angeles.

The club plans to give a series of lectures, which will be instructive to the young and old. The boys have extended an invitation to the public to attend the lecture tomorrow evening, and it is asserted that all the addresses delivered in Compton Assembly hall will be free.

The Junior Progressive club connected with the Oakland Free Library was formed in April, 1910, and is composed of 30 members, with a waiting list of 18 at present. The boy's ages range from 14 to 17 years. There are two meetings each month, one a business meeting and the other a lecture.

The club meets in the children's room of the Oakland Free Library.

The Insurgent Fight Against Taft.

The insurgent Republicans in the Senate sharply criticized the regulars for combining with the Democrats to pass the reciprocity bill, but they see no inconsistency or political impropriety in themselves combining with the Democrats to pass a tariff ripping bill. However, their object in voting for the wool tariff bill which has just passed the Senate by a combined vote of the insurgents and Democrats is the same that dictated opposition to the reciprocity agreement—a desire to frustrate and embarrass the President. The bill revising the wool schedule was passed in the hope that the House would approve it and the President forced to veto it.

When he signed the Payne-Aldrich bill Taft expressed dissatisfaction with the wool schedule, but his disapproval of the details of schedule K by no means implies that the bill passed by the insurgents and Democrats remedies the defects to which he objected. Moreover, the President has again and again stated that he did not favor tariff revision at this session, but preferred to wait till a commission of tariff experts had made a report which would embody correct and authoritative data on which to base the percentage of duties.

But the insurgents do not want to revise the tariff so much as they desire to make politics out of it. First of all they desire to thwart the President and place him in a false position. They are striving to embarrass his candidacy for re-election and give color to the charge they propose to bring hereafter that he has contradicted himself in regard to tariff revision, that he has interposed his veto to prevent the very schedule he condemned from being revised.

It is to be noted that the three Democratic Senators who voted with the insurgents against the reciprocity bill voted for the wool bill. They are not in favor of revising the tariff; particularly are they opposed to putting wool on the free list. Bailey of Texas and his followers, Simmons of North Carolina and Clarke of Arkansas made up this contingent. They are company the insurgents have all along found congenial.

Of course the object of the Democrats in aiding the insurgents to pass the wool bill is political. They are maneuvering for the Presidential campaign next year. They realize that Taft will inevitably be renominated, and hence they are now campaigning in Congress against him. The embittered faction that follows the leadership of La Follette is vainly striving to prevent Taft's renomination. They are throwing obstacles in the way of his re-election in the hope that he may retire from the canvass or be forced out by the party leaders on the ground that he cannot be re-elected. Thus the administration is being treacherously stabbed by men calling themselves Republicans to serve personal ambitions and factional ends which take no account of the national welfare or the integrity of the Republican party.

To put it plainly, the insurgents are fighting the administration at all points and with every weapon at their command. They are scandalizing the President and throwing stink-pots at every member of the cabinet. They shift their ground continually, always with a view to keeping their faces set against Taft and the policies he is trying to promote. They were standpat protectionists when fighting reciprocity. They became radical tariff revisionists the moment the reciprocity bill passed. They are inconsistent in everything save enmity to the President.

But the Democrats in the House may not abandon their program to please the Republican insurgents in the Senate. They are not likely to cheerfully tie themselves as a tail to La Follette's kite, and hence it is more than probable that they will send the wool bill back to the Senate and insist upon the measure originally put through by Mr. Underwood, chairman of the Ways and Means Committee. If they do, the scheme of La Follette and his insurgent followers will come to naught, for in that case the President will not be confronted with the alternative of placing himself in a false position or signing a bill which he does not approve.

The National Bureau of Statistics has not treated Nevada fairly in summarizing the industries of that remarkable commonwealth. In the Abstract of Statistics just issued from the national printing office the Sagebrush State is credited with 115 manufacturing establishments, giving employment to 802 persons. But strange to say the summary omits all mention of Nevada's chief industry, mining excepted. The Reno divorce mill is not named nor are those employed in its operation included in the total of those engaged in industrial pursuits. The omission is singular, not to say suspicious. It is grossly unfair to the Battle-Born State. The Reno divorce mill is one of the largest and most lucrative industries in our neighbor commonwealth, and as a moral agency can claim supereminence over the faro banks, dance halls and saloons. Yet the minions of the Federal government refuse to notice it.

Mr. Williams and the Shasta Bank.

The attitude State Bank Examiner Williams has assumed toward the Bank of Shasta County is indicative of his belief that a rehabilitation of the bank without loss to either depositors or debtors would be a reflection on him as a public official. His avowed hostility to Alden Anderson, who was legislated out of office that Mr. Williams might have his place, appears to be largely inspired by a desire to show that the elimination of Mr. Anderson by a legislative coup was necessary. He therefore rejects all suggestions that the Bank of Shasta's affairs may be adjusted without loss to those immediately concerned and renews his attack on his predecessor's course as Superintendent of Banking.

It is unfortunate that Mr. Williams should be in such a frame of mind. It blinds his eyes to the duty he owes to the people who are interested one way or another in the assets of the Bank of Shasta. He should not permit personal animus or political bias to influence him in dealing with the bank's affairs, but unfortunately he appears to be governed more by personal feeling than a desire to do the best that he can in the circumstances for those involved.

The Bank Examiner's first object should be to protect as far as possible the bank's depositors from loss. He cannot do this without making the assets and securities realize all they can be made to yield. By making the securities realize all that can be made out of them he will greatly aid the bank's debtors and do no more than justice to all concerned. Liquidating the bank is not a matter of politics or of personal feeling, but a question of business. It is a business requiring the exercise of sound, dispassionate judgment, and Mr. Williams can do no better service to the public nor give more satisfactory evidence of his fitness for the position he occupies than to dismiss personal and political prejudices and proceed with the work of liquidation solely with an eye to doing the best he can for those concerned whether they be creditors or debtors. We do not say he will not do this, but his display of temper and feeling gives

"Get Off the Earth"

ground for a fear that he is not following the dictates of good judgment.

Recrimination as to the responsibility for the bank's condition is profitless so far as determining the wisest course to pursue in liquidation. That is the matter in hand at present and it is to that Mr. Williams should address himself with dispassionate judgment. If the object be to prove that Mr. Anderson was derelict in the discharge of his duty the bank's failure will be made as disastrous as possible for all concerned. It will hardly compensate those who suffer loss, however, to have it appear that Mr. Anderson did not do his duty in the premises.

The Moroccan Embrolio.

John Bull is roaring because Germany seems disposed to gain a foothold on the west coast of Morocco. It is assumed by the press of England and France that Germany is threatening British and French interests by taking possession of Agadir—is, in fact, infringing the rights of France and Britain and violating the terms of the agreement entered into at the Algiers conference.

Now Agadir is not within the territory neutralized at the Algiers conference, and hence Germany has not violated the terms of the Algiers compact by landing a force of marines at Agadir. It is true that Agadir lies on the flank of British trade routes to South Africa and South America, but that fact does not give Great Britain the right to complain of German occupation, nor Germany's presence in North Africa infringe the territorial rights of France, although it does interfere with France's design to become master of all the Barbary states.

Agadir belongs to Morocco, not to France or England. Germany has as much right to seize territory in North Africa as France and England have. England has seized the Suez canal, the great trade route to India and East Africa and has established a line of fortified posts from Gibraltar to Cyprus, commanding the approaches to that waterway on the north. At Aden, which commands the Red Sea approach, she has a fortified post and naval base. That is all right, but it is all wrong for Germany to seize territory and establish naval bases which might be used as points of attack on the commerce of other nations.

England holds Egypt and France controls the African coast line from Egypt to Morocco, save a small strip owned by Spain. France and England have a community of interest in keeping Germany out of Northern Africa, hence the concerted splutterings of rage because German marines have been landed at Agadir on the Atlantic coast of Morocco. It is not because Morocco's rights have been invaded, however, that there is rage and gnashing of teeth in London and Paris. No; Morocco's rights are not thought of—it is the self-interests of England and France that are aroused and indignant at Germany's high-handed proceeding. France has been planning to take control of all Morocco, and this plan had the approval of England. But, lo, Germany has stepped in and shows a disposition to take a slice of the pie, and therefore there is blood on the face of the moon.

But it will all end in talk. There will be no war. After the bluster has subsided an agreement will be reached which will increase the white man's burden and decrease the brown man's possessions. Morocco will, of course, be despoiled, but that will be in the interest of civilization, you know. How much Germany will get in the deal depends upon the kind of a bluff she puts up.

UPHOLDING AMERICA

A short time ago a writer deplored the decadence of the American abroad. He reported that in Europe no attention was being paid to the American save by hotel keepers and waiters; that socially, he was practically an ostracized being, dependent on his money to buy the pleasure as well as the necessities of life. Late dispatches tell a different story. In one day's news we read that the German emperor is showering honors and favors on J. P. Morgan, Mr. Wanamaker and Colonel Lewis upholding good American manners and proving by their own reception that the greatest in Europe is approachable to persons of real distinction.

New York American.

Bachelor Musings

He scoffs at luck who never had any. A political reformer is seldom an officeholder.

Pay a man to be good and he won't earn his salary.

The broad-minded man isn't without constant practice.

"Take a fellow your size" is a good motto, provided you realize how small you are.

Physicians say that death from fright and nervous collapse robbed the gallows of Charles Hickman, the most notorious murderer western Pennsylvania has ever had, two hours before the time set for his execution.

It was at first thought he had taken poison, obtained from relatives who visited him, but an autopsy conducted by Drs. Guy Schugert and J. S. Scroggs of Beaver, revealed no evidence of poisoning. His brain, stomach, and kidneys were removed and sent to Professor F. A. Aschman, of Pittsburg, for expert analysis.

Hickman became ill during a farewell conversation with his old mother, Mrs. Mollie Hickman, and grew gradually worse until death came. He ate a hearty afternoon meal, sent in from a nearby restaurant, which had been furnishing his meals for two weeks past.

Doctors at first attributed his illness to cucumbers he ate, but later became convinced that it was a complete collapse. Two guards and two physicians spent the entire night with Hickman.

He had convulsions, and died in a struggle in the hands of his two guards. At times he was raving and then would sink into a helpless state of semi-consciousness.

During the early part of the evening he prayed continuously, placing the responsibility for his crime upon the faithlessness of his murdered wife. When physicians were first called, Hickman showed signs of great pain. Morphine was injected and he soon rallied and became easier. Within two hours the effect of the drug was gone and he became so violent that the physicians were sent for.

His death was a surprise to jail physician E. H. S. McCauley, who visited Hickman shortly after midnight and assured the sheriff that he would be in condition for the execution. All the doctors who were consulted and who have seen the vital organs taken from the body, declare that death was the result of fright and not of poisoning. A week will be required to get the result of the expert analysis.—Philadelphia North American.

An Example to Title Hunters

Continued activity in American real estate among foreign duchesses and countesses of American parentage is more or less gratifying to national pride and stimulating to local business. And yet there is a little touch of pathos in the return of these exiles to their native land after their period of illusion.

As most of these marriage are for a consideration of title on the one hand and money on the other, it seems a pity that they cannot be arranged on the satisfactory principle adopted by Mr. Morgan and the German emperor, who exchanged

Order of the Eagle for a Martin Luther letter, involving no further consideration. If our heiresses could buy their title for so much money, cash down, and stay at home, much grievousness of the spirit and weariness of the flesh might be avoided.

A Morgan—not a morganatic—marriage would be a fair exchange without subsequent regret and heart-burnings. Since it is purely a matter of business, of debt-paying and title-winning, an adherence to sound business principles and with no foolish pretense to romance might solve the problem.—Chicago Examiner.

20 YEARS AGO IN OAKLAND

There is a proposition on foot for the city to purchase and donate to the government property on the corner of Telegraph Avenue and Broadway, between Sixteenth and Seventeenth streets, and present it to the government as a site for a new postoffice building, in view of the fact that the lease on the present site is about to expire.

Sanitary Inspector Smith and his deputy, Nathan Douglass, yesterday afternoon took out \$6000 policies on their lives. It is expected that their families will be thankful for this, for this evening the two officials will storm the stronghold of a German on Harrison street, who this afternoon held them off with a pistol.

George Hartford, who lives on San Pablo avenue, had a narrow escape from drowning yesterday afternoon while he was fishing from Long wharf. He fell overboard and clung to a pile until rescued.

Plans for the Macdonough Theatre are now being held back awaiting the decision of the Atheneum Club as to whether or not they intend to take quarters in the building.

Among the Oaklanders who are leaving today on their vacations are the following: Miss Mary Morgan, Miss Whitley, Mr. and Mrs. James Call, Miss Lillie Perry, Miss Margaret Stabler, Miss Louise Miller, Miss Minnie Gould, E. C.

Parker, Miss Lulu Berry, Miss Carrie Schell, and others.

This morning two ocean-going steamers, a bark, twenty schooners and a large coal barge were in view west of the Webster-street bridge loading or unloading cargoes, while other vessels were coming in or going out. The importance of Oakland harbor is beginning to be known.

A McDougal and Mrs. Crocker, both of Interstate, went to San Francisco on Wednesday and were wed. On their return they were treated to a noisy, if not melodious, welcome.

The engagement is announced of William T. Hamilton and Miss Laura C. Foote, daughter of W. C. Foote, the well-known Sacramento valley farmer.

The wedding will take place Sunday, August 16.

JOKES ON FAME HUNTERS

The Canadian authorities have decided not to hang Mrs. Neapolitan, the woman for whom dozens of American fame-hunters volunteered to die on the scaffold. Wouldn't it be a joke if the Canadian officers would send notice to the American four-flushers telling each of them to appear at a certain time and be hanged as per promise?—Carthage Press.

A HARMLESS WAY TO DARKEN THE HAIR

HUNGRY INFANT POSTPONES TRIAL

A Little Sage and Sulphur Makes Gray Hair Vanish; a Remedy for All Hair Troubles

Who does not know the value of sage and sulphur for keeping the hair dark, soft, glossy and in good condition? As a matter of fact, there is a natural element of hair, and deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of hair. Unquestionably, there is no better remedy for hair and scalp troubles, especially premature grayness, than sage and sulphur, if properly prepared. The Wyeth Chemical Company of New York put up an ideal remedy of this kind, called Wyeth's Sage and Sulphur Hair Remedy, and authorize druggists to sell it, guaranteeing that the money will be refunded if it fails to do exactly as represented.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by the Owl Drug Co., 18th and Broadway, 10th and Washington and 18th and San Pablo.

SWITCHMAN SAVES BOY FROM DEATH

A. E. Petersen Snatches Chinese Youth From Front of Motor Coach

A. E. Petersen, 1610 Fourteenth street, a switchman employed by the Southern Pacific Company, shortly before 6 o'clock last evening heroically rescued a small death-Merry, little Chinese boy, who was playing near the station at Fourteenth and Franklin streets, and who had become bewildered at the approach of an electric train. In his confusion the lad jumped directly in front of the motor coach, which was rapidly bearing down upon him.

Without hesitation Petersen left his switch and, springing to the track, grasped the boy about the waist, landing him safely beyond the wheels. The child was brought to a sudden stop, but shockingly. The passengers, not a soul was injured, and the youthful Chinese, frightened at his narrow escape, took to his heels without delay.

ROB MAN WHO GAVE THEM AID

Two Strangers Accept Charity and Loot Benevolent Sailors of Property

SAN FRANCISCO, July 28.—Two benevolent citizens, who took pity on less fortunate fellow beings and gave them lodgings for the night, are bemoaning the loss of their valuables this morning, and have appealed to the police. Both occurrences took place on the waterfront and two penniless sailors notified the authorities today. William C. Snow, who resides at the New Columbia hotel, met a man who informed him that he was without funds and he took him to his room. At 5 o'clock this morning he awoke to find his watch and chain, a nugget pin and \$3 in cash missing.

In like manner, Charles C. Linden, living at the Harbor hotel, 130 East street, encountered a stranger with whom he had several drinks and whom he invited to his apartment. This morning he discovered that his companion was gone and with him \$80 in cash and a watch.

CONCHOLOGIST OF NOTE PASSES AWAY

Professor Josiah Keep Died Yesterday at Pacific Grove

PACIFIC GROVE, July 28.—Following an illness of about two weeks, Professor Josiah Keep, well known as a writer and educator, passed quietly away at the Pacific Grove hotel here yesterday afternoon. Professor Keep came to Pacific Grove from Mills College, where for 26 years, he had been Instructor in geology and astronomy, to be in attendance at the Chautauqua meeting.

On July 14 Professor Keep was taken ill with appendicitis. From this attack he had soon recovered, last Monday he had his first return to the college when about midnight of the same day he was seized with cerebral hemorrhage. While resting comfortably and with every indication of recovery, a second stroke at 6 o'clock Tuesday night, left no hope of his recovery. From that hour he lay unconscious to the last.

Professor Keep was the author of three popular books, the titles of which are: "West Coast Shells," recently published work, "West Coast Shells"; besides these books a series of scientific publications from his pen were entitled "Shells and Seashells." The funeral will take place here tomorrow at 2 o'clock.

BIG GUNS PROVE EFFECTIVE

The newspaper is the publicity machine gun in the battle of business. With it you can rain shots on any given point that will sweep clean anything within the chosen range.

You can quickly change from point to point, keeping well in advance of your intrepid lines of sales forces and pave the way for their most successful and resounding charges.

What the machine gun is to the military in effectiveness, the newspaper is to the business man, but the business man has the advantage of the use of guns already commanding a thousand fields of action. THE OAKLAND TRIBUNE commands a field of 40,000 homes.

With it you can rain shots on any given point that will sweep clean anything within the chosen range.

We back up every statement we make. We sell the best shoes made—the Prince, Granam's, 1003 Broadway.

And many other entertaining numbers

FINDS MISSING SON IN HOSPITAL

Mother's Search for Absent Boy Reaches Fruition in Oakland

To find her missing son in a hospital, just recovering from a serious illness, was the surprise that awaited Mrs. Sarah E. Lynch, who came here from Sturgis, N. D., in search of James Lynch the first of the week. The mother registered at the Crellin Hotel and at once commenced to make inquiries about her boy, whom she had last heard from in Oakland. Becoming ill, he had not written to her, and, impatient at the delay, she determined to set out and find him.

Through the efforts of Louis Aber, proprietor of the hostelry, all the hospitals were visited and the missing youth finally located in the Merritt hospital, convalescing from his illness. Mrs. Lynch will remain here until his recovery, after which her son will accompany her home.

Without hesitation Petersen left his switch and, springing to the track, grasped the boy about the waist, landing him safely beyond the wheels. The child was brought to a sudden stop, but shockingly. The passengers, not a soul was injured, and the youthful Chinese, frightened at his narrow escape, took to his heels without delay.

Without hesitation Petersen left his switch and, springing to the track, grasped the boy about the waist, landing him safely beyond the wheels. The child was brought to a sudden stop, but shockingly. The passengers, not a soul was injured, and the youthful Chinese, frightened at his narrow escape, took to his heels without delay.

ME. AND MRS. KENDALL MORGAN are home after a two weeks' trip in Shasta county, where Mr. Morgan spent much of the time fishing and hunting. Judge and Mrs. Harry Wright are also in Shasta county, which is very popular among Oaklanders who enjoy roughing it.

The Morgans spend most of the week-ends at the summer homes of friends at near-by resorts and in taking short auto trips.

Dr. Harryman Russ and Mrs. John Russ are to return in the late fall from their tour of the continent. They are now in Paris, where they will be joined by Mrs. Russ' sister, Mrs. Charles D. Pierce.

Other prominent bay city folk who write from abroad are Mrs. William Cliff and Miss Jean Cliff, who are at present in Dresden. They write enthusiastically of their sojourn there.

Mr. and Mrs. George Wilhelm, with Mrs. Edward Engleart at Brookdale, and are enjoying that popular rendezvous for Oaklanders.

CARDS AND TEA.

Miss Ella Moore presided at an informal card party this afternoon when Miss Margaret Ocheltree and Miss Adella Darden, two bride-elects, were made the guests of honor. Among those asked for bridge and tea were Miss Ocheltree, Miss Darden, Miss Dorothy Ocheltree, Miss Florence Wachter, Miss June Schloss, Miss Helen Mathew, Mrs. Warren McKibben, Miss Ethel Robins, Miss May Bissell, Miss Adelaide Stafford, Miss Emily Moore.

WEDDING ON AUGUST 5.

Invitations are out for the wedding of Catherine McCoy and Richard Godfrey Reallick on August 5, at high noon, at the First Presbyterian church. Miss McCoy is the daughter of Mr. and Mrs. William Johnston McCoy, and is a musician of local note.

WEDDING TAKES PLACE.

Miss Ernid Root became Mrs. Frederick Spear yesterday, when Rev. William Day Simonds of the First Unitarian church read the wedding service at the home of the bride's parents, Mr. and Mrs. E. J. Root, in Berkeley. Upon the return of the couple from their wedding trip they will be given a number of pleasant affairs by friends in this city and Berkeley.

LAKE TAHOE, A RENDEZVOUS.

Berkeley and Alameda folk stopping at Lake Tahoe are:

Mrs. D. L. Randolph, Mrs. E. R. Frank, Mr. and Mrs. F. J. Brusone, Miss L. Bruzzone, R. Maertens, Mrs. Frank A. Bush, Mrs. Frank R. Enright, Miss Brooks Beadle, Mrs. Walter P. Treat, Mrs. E. Moore and daughter, M. C. Flaherty, Jesse D. Peixotto, Mrs. Arthur Nahl, Mr. and Mrs. A. J. Mervy, Miss C. V. Rose, Mr. and Mrs. H. F. Wrampelmeyer and Mrs. Maurice Ballin.

RETURN FROM OUTING.

Mrs. Cyrus W. Abbott, Mrs. John Francis Starich and Miss Dorothy Barton have returned after several weeks' visit with their sister, Mrs. Claudio Benton Barton, who is spending the summer months at Pleasanton.

DR. WAKEFIELD BECOMES BRIDE

A simple home ceremony yesterday solemnized the marriage of Dr. Etta Wakefield and Andrew Wolfenden of this city. Heaps of Shasta daisies and pink silk petals were combined to form a bower in which the marriage service was read by the Rev. Frank L. Goodspeed.

The bride was given in marriage by her father, L. H. Wakefield, of East Oakland.

There were no attendants. Slim-

MRS. FREDERICK SPEAR, whose marriage took place yesterday. —Dassonville, Photo.

plicity was the keynote of the wedding.

The families of both bride and groom are old residents here. The wedding is the culmination of a friendship begun in the Yosemite valley, where both were on a camping trip with the Sierra Club.

The bride has been established in practice in this city, where her brother, Dr. William Wakefield, has since been associated with her. Wolfenden took his degree from the University of California with high honors. He has been connected with the faculties of several high schools in the southern part of the state. Recently he accepted a position with the high school in Sausalito, in which city the couple will make their home.

ON CAMPING TRIP. Dr. and Mrs. H. J. Lackey, Mr. and Mrs. George Ryno and Mrs. Henry Chamberlain write of jolly camping days in Sunol Glen.

MRS. H. R. POSTON DEPARTS. Mrs. H. R. Poston has gone to join his daughter, Miss Anna Poston, who is ill in New York.

RETURN HOME. Mr. and Mrs. Carl Rhodin are home from an outing of some length in the Tahoe vicinity.

Miss Lilla and Phyllis Lovell are home from their outing near Cloverdale.

Miss Nora K. Dunn has returned from a trip of two months through the east. She visited her sister, Mrs. F. D. Campau, at Grand Rapids, and spent some time at the beautiful country home of Mrs. William Manor Wright at Prairie View, near Chicago.

ENTERTAIN IN MILL VALLEY. Misses Agnes and Lucy Cushing, with their mother, Mrs. C. H. Cushing, are settled in one of the Marsh

AT SKAGGS SPRINGS.

Oakland, Alameda and Berkeley folk at Skaggs Springs are:

E. Jackson, Mr. and Mrs. H. Taylor, E. R. Williams, Mrs. E. R. Williams, Irene Williams, H. H. Brown, H. T. Smith, Mrs. J. T. Archer, C. Haekle, Alma Schroeder, E. T. Smith, J. W. Ricca, W. R. Griffin and Q. E. Anderson.

REBERKEY GIRL ENGAGED.

Mrs. C. F. Herlitz announces the engagement of her daughter, Miss Beatrice Herlitz, to William Edwards, a young business man of San Francisco. The wedding will not take place until the first of next year. Miss Herlitz is a popular girl of North Berkeley, and will, no doubt, be the recipient of many complimentary-social attentions in the early fall. She will act as bridesmaid at the wedding of her cousin, Miss Caroline Herlitz, who is to wed Captain Thomas Nevins in September.

AT SKAGGS SPRINGS.

Mr. and Mrs. John V. Whistern and little sons, Arthur and Will Whistern, have returned home after a four weeks' outing at the J. G. Cromwell ranch, Glen Ellen.

COMPLIMENTARY DINNER.

Mrs. Maxim Jacobs, assisted by Miss Consuelo Kerns and Miss Margaret Angelica Saxon, entertained at their Jackson street home Wednesday evening in honor of Mr. and Mrs. Harry Brown Nichols. Covers were laid for twenty, and an elaborate dinner was enjoyed by the guests. The prevailing scheme in the table decorations was old rose, while a tinge of heliotrope added a diversity of color that blended harmoniously with the appearance of the dining hall. American beauty roses entered largely into the floral display, which was unusually elaborate.

Mr. and Mrs. Nichols will shortly move into their new home in Linda Vista, and the dinner was given as a farewell affair.

DIGESTION AND ASSIMILATION.

It is not the quantity of food taken but the amount digested and assimilated that gives strength and vitality to the system. Digestion is the process of assimilating and preparing the stomach and liver to enable them to perform their functions naturally. For sale by Osgood Bros' Drug Stores.

WOMEN IN THE NEWS

DEATH IS GUEST AT LONDON WEDDING

Actress Becomes Wife of Scion of Clyde Family, With Coffin Near.

Sarcophagus Two Feet Away When Couple Kneel at Altar.

ONDON, July 28.—Miss Dora Jesslyn Taylor and William P. Clyde, Jr., were married yesterday in the presence of death. They moved to the altar rail in the granite chamber of a tomb. Within two feet of them, as they knelt for the final sacrament, lay the body of a man.

The many American guests who had watched the unclouded course of the romance between the beautiful actress and the son of the rich steamship man could not but shudder at the strange setting of the ceremony in Old Dulwich College Chapel. But the bride and the bridegroom did not seem to mind it a bit.

Their passage to the altar was a physical as well as a moral triumph.

None but an actress of consummate grace could have vaulted over a huge sarcophagus with unblighted dignity.

None but a young man of perfect poise could have followed her without exciting a gasp of horror or a ripple of laughter even in that grim presence.

The couple achieved the seemingly impossible, easy as they overcame parental hesitancy in the early days of their romance.

It was a great honor to be married in the old Jacobite chapel, for no one was ever married there before. Only the high rank of the officiating clergyman, Archdeacon David, chaplain of Dulwich College, obtained for them the unique privilege.

It happened that a man named Mitchell, a lifelong supporter of the college, had died a few days before. His obsequies were solemnized in the chapel only Wednesday.

As the brightly dressed wedding guests assembled in the church, the great green granite sarcophagus still stood before the pulpit.

Tells of Discord

SAN JOSE, July 28.—Ara L. Walsh, wife of Patrick M. Walsh, wholesale grocer, has instituted divorce proceedings, alleging cruelty, and the additional charge that her husband, with her father-in-law, has fraudulently swindled her out of a rightful share of his property.

The complaint was filed yesterday and a copy forwarded to Walsh at Auburn, Placer county, as well as to her father-in-law, Thomas Walsh, of Grand Junction, Iowa.

The Walshes were married in San Jose ten years ago. The last four years have been spent in touring the United States for the benefit of Walsh's health. She alleges that while on this trip she was subjected to personal violence and abusive language and makes that as the basis of her complaint for separation.

Amador Girl Missing

JACKSON, July 28.—Hazel Green, who left home unannounced on July 10, is still missing, and the police of many cities have been asked to find her.

A detective has been employed to search for her in San Francisco, as a former acquaintance of the girl says he saw her there a few days ago. After she left here she telegraphed from Sacramento to her father, who is the proprietor of the Globe Hotel here, that she was all right and would write later. Search in Sacramento failed to discover her.

This girl is of prepossessing appearance and has a wide acquaintance, having lived at the hotel conducted by her father. She left home during the night, presumably by automobile.

Elopers Forgiven

VISALIA, July 28.—Bert Deering and bride (neé Warren), both of Tulare, have returned to that place to receive the parental blessing after an elopement which included the climbing out of a bedroom window by the girl at midnight to join her betrothed. The ceremony was performed in Visalia, by Justice Bagby just before a telephone message had been received from the irate father by the sheriff's office, asking that the wedding be stopped. The blessing has been given.

Sweethearts United

VISALIA, July 28.—Slipping away to Fresno, John Wehnert, local business man, wedded Mrs. A. L. Davis of Philadelphia, in this city last Sunday. The marriage was kept a secret until yesterday. Wehnert came west and was married here fifteen years ago yesterday. His wife died a year ago. Mrs. Davis married in the East, but was recently freed from her husband. When Wehnert learned that she was free to wed he wrote her, she came west and the ceremony in Fresno was the result.

Christens Liner

WALLSEND-ON-TYNE, England, July 28.—The Laconia, a sister ship of the Franconia, built for the Cunard Steamship Company, was launched yesterday. The vessel was christened by Mrs. Whitelaw Reid, who was accompanied from London by the United States ambassador.

Shoots Big Buck

SANTA ROSA, July 28.—Miss Minna Baron, a pretty Cloverdale girl, has the distinction of having killed one of the largest bucks seen in the hills in that section this season.

While out hunting with her brother, Jack Baron, Miss Baron shot and killed a buck that weighed 140 pounds.

She is a crack shot and greatly enjoys hunting on her father's big ranch.

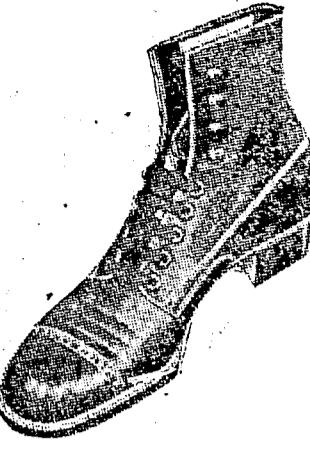

BABE IS DROWNED OFF ARK.

STOCKTON, July 28.—Four-year-old Fitzgerald Merk, while playing on the platform of the family ark yesterday, fell overboard in sight of three small brothers and an older sister and drowned before rescue could be effected. The body was recovered half hour later.

DIGESTION AND ASSIMILATION.

It is not the quantity of food taken but the amount digested and assimilated that gives strength and vitality to the system. Digestion is the process of assimilating and preparing the stomach and liver to enable them to perform their functions naturally. For sale by Osgood Bros' Drug Stores.

APOPLEXY CLAIMS TAYLOR AS VICTIM

Manager of D. O. Mills' Interests for Twenty Years Passes Away.

SAN FRANCISCO, July 28.—H. H. Casal del Rey, together with the Cottage City, has been reserved by the council for its guests, and every attention will be shown them to make their stay in Santa Cruz pleasant. On the Sunday afternoon of the general celebration the council will hold a reception in the Casino to provide a luncheon, orchestra and entertainment for the guests, and will also be given by the Glee Club of Ignatian Council.

The Council will conclude its two days' sojourn in Santa Cruz by a table d'hôte dinner in the Casino grill.

The committee in charge of the arrangements is composed of: W. F. Miner, E. F. Glennon, J. V. Andler, George B. L. McKinley, J. C. O'Connor Jr., S. A. Rice, F. Smith, J. V. Hartman, L. J. Blake, Wm. Lafferty Jr., W. J. Dowling Jr., Daniel O'Connell, Dr. J. M. Tonner.

IGNATIAN Council No. 35, encouraged by the success attained upon its recent pilgrimage to Yosemite Valley, has made arrangements for a special train to leave Third and Townsend streets at 2:30 o'clock on Saturday afternoon, August 26. The committee appointed to carry out this detail has issued a beautiful folder descriptive of the trip, which can be secured at the Young Men's Institute Hall, 92 Sanchez street.

Reservations are limited to 500, over half of which have already been assigned.

Following the arrival of the special in

STIMSON IN PORTO RICO.

SAN JUAN, Porto Rico, July 28.—Henry L. Stimson, the American secretary of war, with Brigadier-General Clarence R. Edwards, chief of the bureau of insular affairs, and the others of his party arrived at Ponce yesterday on board the cruiser North Star, coming from Panama. This afternoon the party motored across the island to San Juan. Last night an official dinner was given at the palace and a ball at the Union Club.

EAGLES TO INITIATE.

CROCKETT, July 28.—A large class of initiates of the Crockett Eagles will be received tomorrow night when the annual meeting of the Vallejo Aerie of Eagles will come over to conduct the ceremonies.

HAYTIEN REBELS SURROUND CAPITAL CITY

SIMON READY HALF-HUNDRED
TO ABANDON INJURED IN
PALACE WRECK

General Le Conte at Head of Invading Forces and Is Near Town

Place in State of Siege and the Food Supplies Are Running Low

PORT AU PRINCE, July 28.—The revolutionists surround the capital. President Simon appears to recognize the inevitable, but if he has left the palace the fact is not known. It is believed he planned to embark at the last moment, but it is thought that if he remained in the city he could help to assure public order following the occupation by the enemy.

General Le Conte is at the head of the invading forces. He occupied Gonaves Monday and his advance guard reached Archdale yesterday and before sunset had come within three miles of the city. Le Conte's candidate for the presidency progressed with his march on the capital and there was a consequent loss of ground by General Firmin, commander of the rival wing of the revolution and also an aspirant for the office of national executive in succession to Simon, whose forced retirement is at hand.

AWAITED IMPATIENTLY.

General Firmin's arrival here is awaited impatiently by his partisans and with some anxiety by the public lest the overthrow of the present government result in a clash between the supporters of Le Conte and Firmin.

In the crisis Simon has had the forethought to lease his private residence, situated in a suburb, to a man named Archer, who is an American citizen, in order to insure its protection in case of pillage.

The city has a deserted air. Most of the stores are closed and the citizens are keeping indoors. No one ventures out except of necessity. The sellers of produce have ceased coming into town and the food supplies are fast being exhausted. Vegetables and meat have advanced rapidly in price and there is little of either to be had at any figure.

A lumber mill on the banks of a lake in Archdale is being run by the revolutionists and with it 200,000 railroad ties, which had been cut for the new railroad which is being constructed by an American company.

INDUSTRIAL WORKER
REALEASSED BY COURT

SAN FRANCISCO, July 28.—George Swasey, a member of the Industrial Workers of the World, was dismissed in Judge Sullivan's court today after he had explained that he had not desired to trespass when he attempted to make a public speech recently. It appears that Swasey was using the platform of certain religious workers and was arrested because of his failure to move on.

LILLIAN RUSSELL TO TELL SECRET OF HER BEAUTY

Actress Has Found Ponce De Leon's Fountain

LILLIAN RUSSELL, world famous as an actress for more than a generation, will be in Oakland next Sunday and thereafter every day on a special engagement, for TRIBUNE readers only. She will not be here in person, but her writings will make her presence felt particularly among the women of Oakland who have been interested in beautiful members of their sex and who would learn the secrets of appearing young in spite of years.

During the long time that she has been before the theater-loving public, her chief attraction has been perhaps, the remarkable beauty of her features and figure. As season after season flew past and thousands of her admirers began to show the effects of age, the marvel grew that Lillian Russell seemed never to grow old.

LETTERS BY HUNDREDS.

Constantly she was besieged with hundreds of letters from women in all parts of the country asking her advice on beauty matters and for her recipes for keeping ever young in appearance.

However, the strenuous life that she led in entertaining the public and in traveling from one post to another, prevented her from an-

EXCURSION TRAIN DERAILLED AND THREE PULLMANS ROLL DOWN EMBANKMENT

WOMAN HAS SPINE BROKEN AND WILL DIE; DETAILS ARE FEW

NEW YORK, July 28.—The Lehigh Valley Railroad received word today from Burdette, on Seneca lake in the central part of the state, that 50 passengers had been injured when an excursion train from Western points to Atlantic City was derailed. Most of the injuries are slight and thus far no deaths have been reported.

The accident occurred at 2:40 a.m., and was caused by a broken rail, about two miles west of Burdette. Three Pullmans left the track and rolled down a ten-foot embankment. All the injured were in these cars. The rest of the train, consisting of the locomotive, baggage car, four Pullmans and a day coach, remained on the rails.

230 ON BOARD.

The train was being run as section two of No. 6. The Lehigh received it at Buffalo last night from the Lake Shore road, which had gathered the excursionists from points between Buffalo and Chicago. The passengers numbered 230.

Most of the injured were able to continue the journey in another train which was made up after the accident. The others were taken to the hospital. Only general information has been received here thus far regarding the condition of the injured.

The most serious case is said to be a woman whose spine was broken and who probably will die.

FARMERS SEEK GIANT COW-KILLING SNAKE

REPTILE HAS BODY BIG AS STOVEPIPE; SHOTGUNS ARE OILED AND LOADED.

EDWARDSVILLE, Ill., July 28.—Farmers near Troy, southeast of here, have been on the lookout for several days for a large snake, reported to have been recently seen by Edward Hunsche. He said the snake in a creek

had a good look as it slid over a log of driftwood and claims it was as big as a stovepipe and between twelve and fifteen feet long. Farmers of the vicinity have placed loaded shotguns in handy places and are keeping a close watch for the reptile.

The snake was credited with killing a cow and making away with many chickens at Prairiefont.

In the medical world Dr. Sylvester is

held in esteem by the members of the profession. She was one of the leading advocates of the open air schools, and during the past two years she has delivered many lectures on the benefits to be derived from that type of school building. She has taken an active interest in the Alameda County Society for the Study and Prevention of Tuberculosis, and has given her services freely in the suppression of the plague.

Dr. Sylvester is a graduate of the University of Minnesota and the medical department of the University of California. She studied in the University of Berlin, where she did much research work. While in New York Doctor Sylvester was an intern in the Hospital for Women and Children in Syracuse.

The appointment of Doctor Sylvester by the board resulted from the reading of the following communication by Dr. N. K. Foster, director of the department of health development and sanitation in the Oakland schools.

NEED IS URGED.

During the past year I have, to the best of my ability and time, given to the higher grammar grade boys, instruction in subjects very important to them, but which have in the past been entirely neglected by the school authorities and generally by the parent. As a result of this neglect they get misinformation elsewhere.

The girls, no less than the boys, need true instruction. To give this we should have an earnest, well informed, forceful woman physician, and I earnestly recommend to your honorable body the appointment of such a woman for the express purpose of instructing the school girls in these subjects.

The board has fixed the salary of Doctor Sylvester at \$100 per month, and she has been employed to lecture to the boys and girls in the eighth grade of the grammar school and the students of the local high schools during the morning hours. Sex physiology will be an important part of the work. All the phases of hygiene will be studied as they are in various schools throughout the Eastern and Western cities.

NEEDS NO INTRODUCTION.

In furtherance of this desire on her part, THE TRIBUNE willingly undertook to present Lillian Russell to the public of the bay cities; not that she needs an introduction, for it is safe to say there is scarcely a man, woman or child living, old enough to understand, who has not heard of this remarkable woman of the stage. But as a benefactress at large, Lillian Russell has not been extensively known, so it is that though THE TRIBUNE, she will endeavor to tell others the methods and recipes she has used during her wonderful career and which have attributed to her personality by maintaining a beauty that has all along been the delight of all people, from kings to the humblest of their subjects.

HOUSE DISCUSSES COTTON REVISION

Reductions Over Present Tariff Measure Defended by Underwood

WASHINGTON, July 28.—Discussion of the cotton revision bill began today in the House. Chairman Underwood of the ways and means committee opened the debate with a complete explanation of the provisions of the bill, the amount of revenue that will be produced by it, and a defense of the reductions over the present tariff measure. The measure, it is expected, will be passed by the House next Thursday, August 2.

DR. SYLVESTER GIVEN POSITION TO INSTRUCT GIRLS IN HYGIENE

DR. FLORENCE SYLVESTER, who was elected by the Board of Education lecturer in hygiene in the high schools of this city.

OAKLAND SCHOOL BOARD SECURES SERVICES OF NOTED LECTURER, FORMERLY A MEMBER OF STATE UNIVERSITY STAFF

Dr. Florence Sylvester, lecturer in hygiene in the University of California during the past semester and one of the distinguished graduates of the medical department of that institution with the class of 1907, was appointed instructor of hygiene in the Oakland High schools at the meeting of the Board of Education held last evening in the city hall annex, Seventeenth and Broadway.

In the medical world Dr. Sylvester is

held in esteem by the members of the profession. She was one of the leading advocates of the open air schools, and during the past two years she has delivered many lectures on the benefits to be derived from that type of school building. She has taken an active interest in the Alameda County Society for the Study and Prevention of Tuberculosis, and has given her services freely in the suppression of the plague.

ALLEGED BOY MURDERER JAILED PROMOTER IS 20 REPUBLICS ACCUSED OF TO AID BIG FAIR

Paul Geidel Is Said to Have Killed Aged New York Broker

Police Claim to Have Signed Confession of Slaying of Henry Jackson

NEW YORK, July 28.—Paul Geidel, a 17-year-old boy, slight of stature, slick of attire, sharp featured, and with the smooth, sallow complexion of the youthfull cigarette smoker, was arrested here early today as the murderer of William Henry Jackson, the aged Wall street broker, who was found dead in his hotel apartment on Fourth street yesterday. An hour after the arrest Police Commissioner Dougherty and District Attorney Whiteman brought out from the room where they had been closeted with Geidel a long typewritten confession which they say the lad had dictated and signed, giving the full account of the crime.

Robbery was the motive, according to the lad's statement, but the murderer netted him only \$6 in cash and a gold watch, which he pawned for \$18 more. Geidel was a bellboy at Mr. Jackson's hotel, the Iroquois, until last Friday, when he was discharged.

He was without money. On going to his room place he noticed a bottle of chloroform which his landlady had purchased a few days before in order to kill painlessly an ailing pet dog. It appealed to Geidel, the confession says, that he might obtain money by chloroforming and robbing the aged broker, who was reputed to carry large sums about with him. The confession, as given out by the police, continues substantially as follows:

STORY OF CRIME.

"Late Wednesday night I entered the basement of the hotel and walked unobserved by the rear stairways to the tenth floor. I climbed into the bathroom of Mr. Jackson's apartment through a transom on the corridor. He awoke as I was preparing to drop the chloroform-soaked rag over his face, and instead of going unconscious at once with the drug, he began a desperate fight. I hit him hard in the face and he sank down helpless. Then the chloroform did the rest.

"I went through the room and his clothes, took the little money he had and his watch, and hurried out as I had come. My clothing was badly stained and I took it to a tailor to be cleaned. My soiled shirt I threw into a garbage barrel in West Fifteenth street and then I went home. I am glad it is all over. The suspense has been terrible."

BOTTLE THE CLUE.

The finding of the empty chloroform bottle in Mr. Jackson's apartment af-

Morris L. Brackett Faces Suit Filed by Railroad Stockholder

Declares Only \$12,000 Was Spent Out of Promised \$74,000

SAN FRANCISCO, July 28.—A suit alleging fraud and asking for an accounting of all moneys received was filed in the Superior Court today by John J. Doyle, a stockholder, against the directors of the San Joaquin Valley Electric Railway. Doyle, who represents a number of other stockholders as well, also prays for the removal of the directors from office.

Morris L. Brackett, promoter of the road, is said to control a majority of the stock and thus dictate the acts of the directors. It is charged that while Brackett claims to have spent \$74,000 in grading 35 miles of road he has laid only 22 miles at a cost not exceeding \$12,000.

Doyle also claims that Brackett tried to work a fraud on the public in stating New York and Paris bankers had subscribed to all of the \$15,000,000 worth of bonds issued except \$100,000 which he withheld for local investors.

forded the clue that led to Geidel's arrest. The label on the bottle, half obliterated, showed that it had been purchased in Newark, N. J. A squad of detectives hurried to Newark and found that the pharmacists' record showed that the chloroform had been purchased a week ago by Mrs. Kane of West Fifteenth street. Mrs. Kane admitted that she had purchased the chloroform and said that the bottle was in her bathroom. But when she looked there it was missing.

"Why, Paul Geidel, one of my roomers, must have taken it," she said. "He was asking me about it the other day."

Geidel, who was in his room, was arrested immediately, and after a little grilling by the detectives, is said to have admitted that he had committed the crime.

GEIDEL INDICTED.

Geidel was indicted by the grand jury and formally charged with the murder of Jackson. Love of clothes and finery caused Geidel to attempt the robbery, which ended in the killing of the broker. Jackson had been a liberal tipper and the bellboy believed "he had money in every pocket."

Patrick McGrane, who pawned the watch Geidel stole, was also held by the coroner's jury, which recommended that he be indicted as an accessory after the fact.

John Barrett Assures Directors of Pan-American Union's Support

Declares Exposition Will Be Greatest in History of the World

SAN FRANCISCO, July 28.—The chief event in Panama-Pacific Exposition circles today was the luncheon given at the St. Francis Hotel to John Barrett, director general of the Pan-American Union. As Governor Johnson could not be present the affair was strictly for the directors and the occasion proved a most memorable one.

Last night Barrett was the guest of honor at a banquet given by the Chamber of Commerce, during which he extolled San Francisco, congratulated the directors and the citizens on the magnificent site, and promised the support of twenty Latin-American republics as aids to the exposition. He indicated that the republics would do everything possible for the success of the fair and gave it as his belief that the exposition would be one of the most successful in the history of the world.

Congratulatory messages are still pouring in to exposition headquarters and President Moore and his staff are at work starting the ball rolling for taking up the work of constructing the mammoth fair.

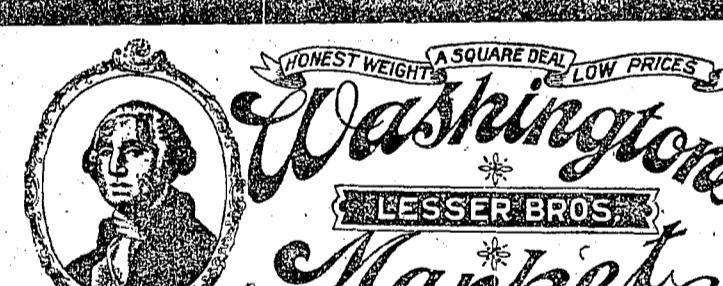

WORTHY OF AID.

Barrett, speaking at the luncheon given in his honor today, read a telegram sent to Ellihu Root advising Root, as secretary of the Senate exposition committee, that the exposition and its directorate "are worthy of the fullest cooperation and confidence which the government can give in the matter of inviting foreign countries to participate."

The speaker said that Root would be the man to frame the bill calling on the foreign nations to join in the fair, and added that the reason on which he based his judgment was the attitude of the people of the city and state toward the fair, the preparations and actual resources, the unanimous approval of the site and the popular desire to show foreign people every attention and hospitality.

Barrett said he would do all in his power to secure the co-operation of the American republics and other governments. A scheme for worldwide publicity was suggested by which the fair would be advertised in all languages and the foreign representatives at Washington be invited to take part in the groundbreaking ceremonies.

SCIENCE CONVERTS
WASTE MATERIAL
INTO GOLDProf W. C. Morgan Tells How
Chemists Have Saved
Vast Sums.CORN COBS CONVERTED
INTO MAPLE SYRUPProducts of Coal Tar Given as
an Example of What
Scientists Do.

UNIVERSITY OF CALIFORNIA, July 28.—Professor W. C. Morgan lectured in the Chemistry building of the university on "The World of Waste and the Latter Day Alchemists."

"For more than 1500 years the efforts of the alchemist, the forerunner of the modern chemist," said Prof. Morgan, "were directed to turning baser metals into gold. The modern chemist is converting waste into gold. From tallow is made glycerine, and by the use of this, nitroglycerine and dynamite are made from the waste of the wood used in making charcoal, burning gas, wood alcohol and acetic acid are secured. This one saving amounts to between four and six million dollars annually in the United States.

NOTHING ESCAPES.

In the great slaughter houses every part of the animal is used. What can not be used for meats, is used for soaps, glue and neat's foot jelly, cyanides and fertilizers. There is not a thing which walks in on hoofs which is not used. Even the heat of the bodies of the animals is used for heating the water for the boilers.

The hoofs are made into buttons, the horns into tortoise-shell combs and the hoofs into leather.

"From waste wood, leather and scrap iron is obtained the cyanide used in the reduction of low grade gold ores. More gold has been produced in the last 25 years by the cyanide process than was produced in all the history of the world.

"Wood, sawdust and cotton rags can be converted into alcohol. A man starting with alcohol comes to rags, and now, thanks to science, we can take those rags and get back the alcohol."

Professor Morgan then drew from a basket labeled "coal tar," articles obtained from tar, such as benzine, aniline, aniline, moth balls, carbolic acid, cinnamom oil, winter green oil, raspberry flavor, vanilla, oil of cloves, saccharine and sugar.

"The dyes have come into our houses in the clothing and the foods. Professor Morgan said, as he showed a series of dyed silks colored from cans of fruit, tomato soup, candy and soda water syrup.

"Prune pits, apricot pits, are shipped to Germany at \$20 a ton and come back as oil of almonds at a dollar a pound," said Morgan. "The pith of corncocks is used by the government to line the battle ships. The rest of it is converted into maple sugar. In these ways the modern chemist is converting waste into gold."

The lecture was illustrated by a number of interesting experiments conducted by Professor Morgan.

WARRANT ISSUED FOR
ALLEGED DIPSOMANIAC

A warrant has been issued for the arrest of William Wilson, who resides at 111 Eleventh street, on the charge of intemperate use of narcotics. It is expected that he will have his hearing before a commission in the superior court tomorrow.

ALAMEDA SOCIETY LEADER
NOW ON SUMMER OUTING

MRS. J. H. WILKENS, who has been enjoying summer outing.

ALAMEDA, July 28.—Mr. and Mrs. J. H. Wilkens have been enjoying an outing with relatives at Petaluma. Mrs. Wilkens was the inspiration for many social affairs given by her many friends during her stay. The Wilkens home in Park avenue is the scene of many social gatherings. Mrs. Wilkens entertaining

frequently at afternoon affairs.

Mr. and Mrs. Wilkens have made their home in this city for more than five years and have made a wide circle of friends. Mrs. Wilkens is interested in charity and civic work and served on the Fourth of July dance committee, her efforts and leadership helping to make the dance a big success.

PUSH WORK ON
ELECTRIC LINESUnited Properties Company to
Rush Double Tracking to
CompletionMrs. C. L. Goddard Conducts
Work From Berkeley
Headquarters

RICHMOND, July 28.—The United Properties Company is now pushing its survey for the double-tracking of its electric line from the county line to and through this city. At the present time the survey has been completed to the city line at Twenty-third street and Macdonald avenue. This is in line with the company's plans for the improvement of the service between here and Oakland made some time ago.

At the western end of Macdonald avenue, namely the Santa Fe station, the line will be run along Ashland avenue, the big, new thoroughfare connecting the two parts of the city, and will then proceed to the Standard Oil works.

By way of encouraging the people to economize on ice the companies have been thoughtful enough to raise the price of it.—Chicago Tribune.

BERKELEY, July 28.—With Mrs. C. L. Goddard of Berkeley as president, and Mrs. Frank Hus of Oakland, secretary, the Northern California suffrage to carry on a campaign against the suffrage movement in this part of the State. Mrs. Goddard is conducting the work from headquarters in San Francisco. In this connection, one of the first acts of the anti-suffragists was the placing of placards in local store windows to offset the cards inscribed "Votes for Women."

The council-instructed City Clerk Sebastian Hoff has been given full power to dismiss the cases, and a similar letter will be sent to the Longfellow Improvement club, which also asked leniency for Duggan.

The police simply did their duty in enforcing the liquor ordinance, and were not responsible for the riot at the club.

"This organization means war to them," said the suffragists. "It is only natural that they should defend it."

CITY TO WAGE WAR ON DANGEROUS SQUIRRELS

Council Promises Co-Operation with County and Federal Officials

SANITARY INSPECTOR WILL BE APPOINTED

\$100 Per Month Appropriated at Today's Session for Purpose

Co-operation by the city of Oakland with Alameda county and with the federal health department in attacking the problem of exterminating squirrels in the country districts of the city to avoid the possibility of animal carriers being used as disease carriers into the community was assured this morning by the action of the city council in passing a resolution appropriating money for the work.

The city health and marine hospital service has explained to the city and county the necessity of eradicating these pests which form a menace to the health of the community and the work has been undertaken by Contra Costa and Alameda counties and by the city of Oakland.

The provision made by the council this morning at the instance of the federal health and marine commissioner of Public Health and Safety F. C. Turner, is to continue for three months only. The resolution is as follows:

"Resolved, That the commissioner of public health and safety be and he is hereby authorized to appoint and employ a sanitary inspector at a salary of one hundred dollars (\$100) per month and necessary expenses for a period not exceeding three months, to act under the direction of the United States public health and marine hospital service in the work of exterminating squirrels within the limits of the city of Oakland."

A Bordeleau is to be appointed to this position.

RECEIVES INHERITANCE.
Frank L. Sousa has filed his receipt in the matter of the estate of Cruz M. Sousa for \$106.47 as the amount decreed as one of the heirs of the deceased.

FOREST FIRE IS BEYOND CONTROL

The San Bernardino Mountains Once More Veritable Sea of Flames

SAN BERNARDINO, July 28.—The forest fire in the San Bernardino mountains raged uncontrollable again today despite the efforts of those who are fighting the flames in re-lays.

The fighters are back-bring from the crest, confining their efforts now to preventing the flames from reaching the big timber on the summit. A county highway known as the Crest road forms a natural barrier to the flames and it is from there that the battle against the flames is directed.

Early today the fire worked its way westward toward Skyland Camp and the forest rangers announced that they expected the flames to spread to the government trail east of Squirrel Inn before they could be finally extinguished. There was no apprehension, however, that the fire would reach the buildings of the Squirrel Inn or the Pine Crest resort.

GROHAN SAYS HIS PET HEN LIGHTS HIS PIPE

NEW YORK, July 28.—The White Leghorn hen owned by John Grohan of Glenville, Westchester, which was said recently to have helped him build a chicken coop by holding the nails in its beak after he had smashed his finger, is alleged now to have learned a new trick.

It is said that when Grohan gets home after his day's work and sits in his easy chair on the porch the hen goes into the house, gets his bag of tobacco and pipe and brings them to him. Then when Grohan has filled his pipe, it is added, he puts a match in the hen's beak and she scratches it across the floor and then he lights his pipe.

Grohan declares he expects to teach the hen next to put out the match.

PLAN CALISTHENICS FOR BERKELEY TEACHERS

COUNCILMAN WANTS INSTRUCTORS TO STAND ERECT

BOARD OF EDUCATION TURNS DOWN SOCIALIST

DECIDES THEY MUST PAY RENTAL FOR USE OF AUDITORIUM

BERKELEY, July 28.—Councilman John A. Wilson, ex-officio member of the Board of Education, would have teachers in the Berkeley school department adopt calisthenics, that they may appear as exemplars before their pupils with heads erect and chests extended. He proposed physical culture for the instructors at last night's meeting of the board, but Principal Bunker and several directors agreed that the pupils received sufficient athletic training on the playgrounds.

The board voted last night to lease a piece of land 135x150 adjoining the Franklin school property at Virginia street and San Pablo avenue in order to enlarge the school playground. The lease will extend for five years with an option of purchase at the rental of \$15 a month. The purchase price will be \$750. The motion was made after H. I. Stern reported the result of his investigation of land available in that vicinity.

WANTS BUILDING

It was announced that on account of the overcrowded condition in the McKinley school the board during the last year had found it necessary to rent Wilkins hall for the accommodation of classes, the rental fee being \$50 a month. Mrs. Carlisle said she believed this plan should be eliminated by providing a building near the school for the purpose which could be erected for \$2000. She argued that this sum would be expended in rental of Wilkins hall for three years. The matter was referred to the school-houses and sites committee.

Mrs. Carlisle called attention to the deteriorated condition of the curtain-draped condition of the curtains in the schools. It was found that if curtains were provided wherever needed the cost would be too great, and Mrs. Carlisle was asked to investigate the matter again and ascertain the exact price which would provide curtains where they were actually needed.

SOCIALISTS MUST PAY

A communication from the Socialist local was read, asking the board to grant the local the free use of the high school auditorium on Saturday evening, August 19, when William D. Haworth, the labor leader, will speak. H. I. Stern, in moving that the request be not granted, said that he did not believe in granting special privileges to any party or club. Commissioner Wilson seconded the motion, which was unanimously adopted.

Superintendent Bunker said the rentals from the high school auditorium totaled \$600 last year.

Howard J. Morrison, secretary of the Longfellow Improvement Club, in a communication to the board requested that the club be granted the use of one of the schools in the neighborhood for meeting purposes. The petitioner expressed the opinion that all clubs should be granted the use of school houses in the neighborhoods where the members reside. No action was taken in the matter.

Principal Brink of the High school, in a communication to the board, said that pupils in the high school were permitted to enter their classrooms immediately after entering the school building instead of having to go to the assembly hall. The matter of using the assembly hall for study purposes was contained in the communication. The question was referred to the high school committee.

E. P. Pratt, in charge of the school repair department, stated that Fire Chief Kenney had announced that the predictions taken to prevent a conflagration at the high school were completed. The extra hydrants have been installed and the fire escapes remedied. The cost will be approximately \$150.

NEW TEACHERS APPOINTED

The vacancy in the mathematics department was brought to the attention of the board by Superintendent Bunker said it was voted to place Miss Hazel Roberts, now of the scientific department, in charge of the mathematics division. John W. Raymer was her successor in the scientific department. Miss Isabelle Moore was elected as an instructor in domestic science at the Washington lower high school.

Miss E. Patterson, supervisor of the elementary schools, appeared before the board and urged the appointment of Miss Isabel McKeon, a teacher who was not among those re-elected for the coming year. Miss Patterson said she desired Miss McKeon's reinstatement for personal reasons. After much discussion, it was voted to reinstate Miss McKeon as a teacher for a period of six months.

The matter of selecting a dental clinic and a medical inspector in the schools was brought up by a member of the Alameda County Dental Association, who outlined the work done by the association in providing free dental service in the schools. Action on the matter was deferred to a later meeting that more time could be had for discussion.

It was voted to place a safe in the office of the board of education. Another improvement was to direct the proper authorities to place a light over the entrance to the board of education rooms.

The board will meet next Tuesday evening.

SECKLE LEADS IN GOLF TOURNAMENT

Leads Former National Champion in First Half of Semi-Finals.

DETROIT, July 28.—At the conclusion of the morning half of the semi-finals today for the Western golf championship, Albert Seckle, Chicago, the inter-collegiate champion, led Eben T. Byers of Chillicothe, former national champion, 3 and 1/2 with Robert A. Gardner, Chicago, former national champion, was 2 up, on W. C. Fowness, Jr., Pittsburg, the present holder of the national amateur title.

CONSUL ARNOLD TELLS OF CHINA

DELIVERS LECTURE WHICH IS ILLUSTRATED WITH SCENES IN ORIENT.

UNIVERSITY OF CALIFORNIA, July 28.—Julian H. Arnold, United States consul at China, gave an illustrated lecture on "China" yesterday. Arnold has been connected with the government consular service in the Far East since 1902, when he was appointed the first student interpreter to the American legation at Peking. He also spent two years as consul at Formosa, and has spent three years in Amoy. He will return with his wife to China on the steamer Manchuria, sailing Wednesday. Both Mr. and Mrs. Arnold are graduates of the University.

ILLUSTRATED LECTURE.

The lecture was beautifully illustrated with colored lantern slides, the architecture, methods of transportation, dress, and the geographic features of the country being shown and described.

It may not be generally known that in the cities of China and especially in the north, there are no sewers, the sewage being carried in buckets to the fields for purposes of fertilization.

"The sand from the desert blows into heaps in some sections and the deposits are in places 500 to 1000 feet in depth. The sand particles are held together by decomposed carbonate of lime, and thus veritable mountain ranges are formed.

"Many of the famous landmarks in China are women. These still bear their feet and in consequence are unable to make progress in walking. Barrows carry a dozen or more persons are employed in conveying these women from the factory to their homes.

"The growth of the opium poppy, formerly the best paying crop in the empire, has been suppressed by government order.

Many of the magistrates in Western China have called out the order, and at the same time have encouraged the introduction of the mulberry and the silk industry. The latter crop is not proving quite as profitable as the opium industry.

"It is a significant fact that in the few years China has been open to the world that education has made such rapid strides. Indeed, many of the temples, the shrines of the gods still within them, have been turned into schools and educational institutions. The normal and other schools are doing their work in good shape."

SENATOR CHARGES 'SPOILS SYSTEM'

Kern Is Met with Retort by Dixon, and Counter Charges

WASHINGTON, July 28.—Senator Kern of Indiana, speaking today on a resolution to add several employees to the payroll, charged that "a spoils system ran rampant in the Senate," and that Republican senators systematically divided patronage, that members often were awarded "half a man." Senator Dixon, Republican, retorted that the Democratic House had discharged all Republican employees.

Superintendent Bunker said the rentals from the high school auditorium totaled \$600 last year.

Howard J. Morrison, secretary of the Longfellow Improvement Club, in a communication to the board requested that the club be granted the use of one of the schools in the neighborhood for meeting purposes. The petitioner expressed the opinion that all clubs should be granted the use of school houses in the neighborhoods where the members reside. No action was taken in the matter.

SUMMER SESSION STUDENTS CROWD TO SPAETH LECTURES

Noted Educator's Discourse on Poems of Browning Proves One of the Most Interesting of the Series

UNIVERSITY OF CALIFORNIA, July 28.—The highest compliment that could be paid an instructor at the university was given Professor John Duncan Spaeth this morning when Doctor Rieher, dean of the summer session, announced that owing to the crowded condition of Professor Spaeth's classroom, the class would meet in Harmon gymnasium. The concluding lecture of the course will be on the verse of Walt Whitman. Dr. Spaeth, the professor of English at Princeton university, announced this morning that he will discuss questions of the tour of America and the west very closely. On to an examination on Monday, the first lecture of this series will be given on Tuesday morning at 10 o'clock. Persons not registered in the summer session may secure tickets of admission.

Occupying all the chairs in the largest lecture room of the university, filling the space on the platform about the lecturer's feet, standing on the sides and in the rear of the room, more than five hundred students listened this morning to Dr. Spaeth's concluding lecture on Browning's interpretation of religion and of Christianity.

HAD PHYSICAL BASIS.

Dr. Spaeth said: "Browning's conquest of life had a physical basis, and he tried to justify his poems on intellectual grounds. When a man sees something, it is foolish for him to attempt to prove that it is so. Preceding the proof must be the insight into the words of spirit. The eyewitness always carries more weight than the most learned argument. The great poets are eyewitnesses of spiritual truths. They rise above our level, catch the wireless message and are conductors to bring them to us."

"Browning's attitude toward Christianity is such that for him the acknowledgement of Jesus Christ as the gift of God, the evidence of God's love for fallen man is the keystone of the arch that joins God and man."

This attitude Dr. Spaeth illustrated by reading the closing verses of the Browning poem, "In the Bleak Midwinter," in which the poet expresses belief in the spirituality of death and in the divinity of Jesus Christ.

SON OF HENRY VOGT SHOT THROUGH HAND

Wounded Boy Brought to Oakland After Physicians Make Fight to Save Member

Following a narrow escape from death in which he was shot through the left hand, Angus Vogt, 15-year-old son of Secretary Henry Vogt of the park department, was brought by his father to the home of the family in Oakland today from Santa Cruz, where the accident happened, which might have caused the boy to lose his life, or to be blinded. The boy is suffering from a severe wound of the index finger of the left hand, the bullet having penetrated the bone, and it was thought at first that it would be necessary to amputate the hand.

Secretary Vogt had to cut short his vacation to bring his son back to Oakland. With his family Vogt was spending a two weeks' holiday in the Santa Cruz mountains. Within two days of the time scheduled for the return to Oakland young Angus Vogt was out shooting with a .32-caliber revolver.

In handling the weapon the boy lost his hold, and the revolver dropped

from his hand. Angus snatched at the falling revolver and caught it before it reached the ground, but in doing so he struck the trigger, discharging one of the chambers.

Secretary Vogt immediately hurried with his son to Santa Cruz the nearest place to obtain a physician. With heroic fortitude the boy watched the physician probe the wound, and did not utter a cry while the bullet passed through the bone, leaving a hole where the bullet had passed through. It was two days before the physicians decided that it would be possible to save the hand, as there was at first some danger of infection, and the bone was badly injured.

Secretary Vogt returned to Oakland with his son today. He will resume his duties as secretary of the park commission Monday, and will be actively employed for the dedication ceremonies to mark the unveiling of the McElroy memorial fountain.

It is being claimed that the Fair is in reality a State event, to be paid for by the people's money, and this being the case, then the matter is covered by a portion of Section 3247 of the political codes, Statutes of California, which reads as follows:

"Any supplies, goods, wares, manufactures or produce for the use of the State, or any of its institutions or offices, or for the use of any county or consolidated city and county, or city, or town, shall always, price, fitness and quality being equal, prefer such wares to have been manufactured or produced in the State, and shall not prefer such as have been partially or wholly manufactured or produced in the State."

Local manufacturers consequently declare that they should be given the first preference by the Fair directors in their choice of materials, and in this contention the local Chamber will probably uphold the local men. The matter will be taken up by the directors of the Chamber at a coming meeting.

It is being claimed that the Fair is in reality a State event, to be paid for by the people's money, and this being the case, then the matter is covered by a portion of Section 3247 of the political codes, Statutes of California, which reads as follows:

"Any supplies, goods, wares, manufactures or produce for the use of the State, or any of its institutions or offices, or for the use of any county or consolidated city and county, or city, or town, shall always, price, fitness and quality being equal, prefer such wares to have been manufactured or produced in the State, and shall not prefer such as have been partially or wholly manufactured or produced in the State."

FORTUNE SMILES ON HENLEY AND HE BEATS OUT PERNOLL

Oakland Makes Gallant Try to Win Out; Elements Are Against Wolverton Crew

By BERT LOWRY.

The elongated Mr. Henley was too much for the Oaks yesterday afternoon and this day he has a 1-to-0 victory stowed away to his credit. At that his victory was aided and assisted by the God of luck, for had Pernoll played for Henley at third base in the eighth inning instead of Mohler he would have been out and there would have been no one at third to tally on the swat McArdle gave the ball to right field.

The game, though, was a grand one, and both teams played in real live championship form, and the fans surely got their money's worth.

It illustrated something, too, and that was that, if San Francisco had a few good pitchers in the line-up, they, too, would be factor in the pennant race.

Hits were few and far between and it was pretty evident that Pernoll and Henley fought out on the diamond. Both had almost excellent control, with the shade of the pitching in Pernoll's favor, for while hit for seven bingles, never was a really brilliant play needed to pull him out of a hole, while Henley was in hot water at various times and nothing but a marvelous play and stop here and there kept the Oaks from the rubber.

Handing it to him at that, several times he pitched himself out of trouble, notably in the first inning. With Maggart at third he forced Zacher to pop out and again in the sixth with Maggart at third he fanned Zacher. In the ninth, too, after getting in a hole, he fanned Zacher and Tiedemann.

HOW THE TALLY SCORED.

With a blank for both teams ran the run column until the eighth inning and San Francisco got the lone tally that won the game. Henley it was that opened the round and with two strikes on him he managed to lace a single to left field. Schmidt took Shaw's place, because Hunk was wobbly in the outfield and the catcher had down a pretty bullet, sending it to second.

Mohler next to the line hit to Bud Pernoll. Bud made a clever pickup and had "Cack" at third by a dozen feet. For some reason or other he pegged to first and nailed Ernie, but the peg was fatal. It gave Henley third and when McArdle lifted one to center field "Cack" beat it to the rubber. Weaver hit sharply to Wares, forcing McArdle at second, but the damage had been done. BERKELEY GIRLS WIN. ALAMEDA, July 28.—The Model basketball and indoor baseball teams from the Model playground in Berkeley defeated the Lincoln Park girls' basketball and indoor baseball teams yesterday.

HAPPY HOGAN AFTER AGED AND INFIRM BALL PLAYERS

SACRAMENTO, July 28.—Happy Hogan announced last night that he had the signature of Jimmy Whalen, former Sacramento pitcher, to a Vernon contract. Whalen will appear in uniform here tomorrow and will pitch as soon as he is in condition. Hogan believes Whalen will round out old-time form soon. Whalen is able to use his leg again after being on crutches for some time as the result of an accident at Tacoma early in the season. Whalen pitched in the coast league for years, but early this year was traded to Tacoma by Sacramento. He sustained a broken leg in the first game he pitched.

RUGBY STARS BEING LINED UP FOR BIG PRACTICE STUNT

Graduate Manager Farmer of California has arranged a Rugby double-header for Saturday, October 23. By that time the freshman squad will have been disbanded, with the exception of those baby candidates who form a portion of the varsity squad. The games scheduled are against Nevada Varsity and the Sacramento Athletic Club, an organization that is making an effort to cut some figure in the Rugby world this season.

Most of the alumni varsity athletes from both universities residing in Sacramento and vicinity have affiliated with the Capital City Rugby team, and a number of high school stars will also don uniforms.

Word comes from Nevada that the sagebrush team will be stronger than ever this season, and the athletic committee of that institution is sanguine of at least holding the two veteran varsity fifteen down to a closer margin than they did a year ago.

The California football program includes a trip to Nevada on October 7, and there is a possibility that a game being arranged with all-star team in Los Angeles. Mow Mitchell may be induced to try his hand behind the scrum, and if Henley, Cadwallader and Higgins promise to compete, a likely looking fifteen can be got together.

Walter Christie has discarded for the time being his office of trainer general, having been promoted to the job of assistant coach vacated by Cedric, Cerf and Charlie Voth, who will have charge of the conditioning of the men. Christie has had considerable experience on the practice field under Oscar Taylor and Jimmie Schaeffer.

Four varsity veterans will be lost to the Blue and Gold team this year, but Schaeffer will have a large squad of freshmen to fill up the vacant places, and in addition several candidates who missed college last fall are reported to be heading Berkelyways next month. Carpenter, an old varsity scrum man, is among those who intend to come back. The absentees are Jordan, Dwiggin, Harris, Markwart and Ashley. Ashley, Dwiggin and Markwart have graduated, and Lenk Harris and Midge Jordan will not finish their full course. Harris is located in San Francisco, and will forsake the football field altogether, as he has decided to cast in his lot with the Olympic forces.

Northwest League

STANDING OF THE CLUBS.

	W.	L.	Pct.
Vancouver	64	88	62%
Eureka	58	44	66%
Tacoma	54	44	59%
Seattle	53	47	50%
Portland	45	52	44%
Victoria	28	72	29%

PORTLAND. July 23.—Clark won his own game from Portland. In addition to his good pitching, he did some snappy fielding and then capped the climax by making a two base hit.

Score: R. H. E. Vancouver 3 11 0 Portland 1 4 3 Batteries—Clark and Lewis; Bloomfield and Bradley. Umpire—McCarthy.

TACOMA. July 23.—A batting rally in the eleventh inning gave Tacoma the game, 4 to 3. Three singles in succession scored Abbott and the game was over.

Score: R. H. E. Spokane 8 8 0 Tacoma 4 10 8 Batteries—Villis and Splesman; Gordon and Burns. Umpire—Starkey.

VICTORIA. July 23.—After Williams had held Seattle for five innings, the visitors started a swiftest and won by a score of 11 to 4.

Score: R. H. E. Victoria 4 9 0 Seattle 11 13 1 Batteries—Williams, McCammon and Grinde; Zackert and Shea.

STROLLERS TAKE ANOTHER. Last Sunday at the car barns the fast Strollers baseball team defeated the Red Sox by the score of 5 to 1. The features of the game was the pitching of Plerotti and the heavy stick work of Hennings and Thelos of the Strollers. The Strollers would like to arrange games with any team averaging 16 to 18 years of age. Address, Kari Steinbeck, 77 Lydia street, Oakland, Cal., or phone Home A2704.

CREWS REST ON THEIR OARS.

SARATOGA, N. Y. July 28.—The scores of crews which are to participate in the opening events of the annual regatta of the National Association of Amateur Oarsmen were sent over the course for their final prints yesterday, preparatory for today's struggle. All the crews are in good condition.

QUITTERS WIN ONE.

SACRAMENTO. July 23.—Mahoney broke the game in the eleventh inning with a terrific drive into deep center that would have been good for a home run. That is, he gets credit for a single, and Sacramento was credited with a 2 to 1 victory over Vernon. Until the eleventh, honors were even, with Raleigh and Baum both pitching masterfully.

Sacramento scored in the first and Vernon in the third and that was all until Mahoney's drive in the eleventh. O'Rourke drew a walk in the first, went to third on Van Steinen's single and scored on a double play.

Vernon's lone run was a Homer by Carlisle in the third.

That was all until the eleventh, when Shinn, in his turn, went to second base on Koen's wild throw to second base. Koen and Raleigh conferred and O'Rourke and Van Buren were walked deliberately, filling the bases with none out. Dan Shinn drove in the center field. Shinn was held at third, while two on him. Mahoney drove the ball to the center field corner.

The score:

	1	2	3	4	5	6	7	8	9	10	11
Version	0	0	1	0	0	0	0	0	0	0	1
Hits	1	2	3	4	5	6	7	8	9	10	11
Score	1	1	1	1	1	1	1	1	1	1	1
Seattle	1	0	0	0	0	0	0	0	0	0	1
Batteries—Clark and Lewis; Bloomfield and Bradley.	1	0	0	0	0	0	0	0	0	0	1

UP GOES THE BEAVERS.

LOS ANGELES. July 23.—Those two rivals, Delhi and Seaton, hooked up in a pitcher's battle yesterday, and at the conclusion Portland had two runs to its credit, while the Angels had but one. Both twirlers were working in good form, but for Catcher Smith's wild weave in the third the two teams might have been playing yet with the score one all.

The Angels failed to hit when safe swats meant runs, and their fielding was marred by two errors. The Beavers scored first in the third, after Kuhn had walked and had taken second on a sacrifice. He went to third on Seaton's cut and came home when Smith threw wild to catch him at third.

The ninth inning was productive of another run for the Beavers. Ryan hit for three bases to the right field fence and after Rappos had walked, Krueger slammed the ball against the scoreboard, bringing Ryan in. The Beavers needed that run to win. Score:

	1	2	3	4	5	6	7	8	9	10	11

CHISHOLM MAY BE
THREE MURDERERSARATOGA LAKE
RACES REVIVEDNEW SCHEDULE FOR
SOUTHERN PACIFIC

Evidence Tends to Connect
Him with Two Deaths Other
Than Powell's

SANTA ROSA, July 28.—That L. C. Chisholm, suspected Mount Tamalpais murderer, took an examination for life insurance before the late Dr. Swasey of Stockton in addition to the one he took as John Dawson Powell before Dr. Clark of that city, is another fact that has come into the possession of Chisholm, a district attorney of Sonoma county, who set the "doctor" to life imprisonment for killing Powell.

"We have not been able to learn under what name Chisholm took the examination before Dr. Swasey, as the physician is dead, we are informed. Chisholm, we strongly suspect, killed the man he impersonated," the prosecutor said.

BELIEVES HIM GUILTY.

"I believe he is guilty of more murders than that of Drouillard. The disappearance of Anna Powell points more and more in that direction."

Chief of Police John Hayes received a telegram from Mrs. Van K. Drouillard in Salt Lake City asking him to forward her all the particulars possible of the murder of her husband.

The body is buried in the potter's field, but it is supposed that it will be exhumed for burial by the family.

The fact that Chisholm had a wife and children in Tennessee when he married Blanche McCready, supports District Attorney Lea's contention at the trial that he could prove Chisholm a bigamist as well as a murderer. He may have married Minna Passi under an assumed name, as he did the McCready woman.

DESCRIPTION TALLIES.

SACRAMENTO, July 28.—According to investigations by C. L. Hazlett, resident superintendent of the Gilgame Detective Agency, the description given by Mrs. T. Kroll of Minna Passi and her jewelry tally closely with those of the woman whose body was found on Mount Tamalpais. The authorities are endeavoring to connect "Dr." L. C. Chisholm with that murder.

Hazlett is giving instructions from the Marin county authorities before arranging for Mrs. Kroll to attempt identification of the articles found on the Tamalpais woman's body.

SETTLE DISPUTED CLAIM FOR LAND

New Zealand and United States at Last Come to Terms.

AUCKLAND, New Zealand, July 23.—The government in opening parliament announced that the claim for land purchased from a whaler by William Webster, a deserter from the whaler from Maori in the Auckland district prior to the proclamation of British sovereignty, has been satisfactorily settled with the United States government.

William Webster, who was known in Auckland as the King of Waiouru, at one time had in his possession lands in Auckland worth \$100,000. He was dispossessed of the lands by Governor Hobson in 1841.

He sent a claim from San Francisco, where he resided for a time, and his claim was granted for compensation through the Washington government. Sir Robert Stout, who was commanded to investigate the case by the New Zealand government, reported against the claimants in 1909.

DR. TOLL GETS CHAIR AT ILLINOIS UNIVERSITY

CHAMPAIGN, Ill., July 23.—Dr. Arthur J. Todd has been appointed a member of the faculty of the sociological department of the University of Illinois. Once a probation officer in San Francisco, he took up the study of sociology and was graduated from California and Yale. He will have charge of teaching the practical side of sociology, such as the administration of charities and correction.

CALIFORNIANS IS SECOND PLACE ON DEATH LIST

SACRAMENTO, July 23.—Fewer Californians die in this state than those born in other states, according to a report made by Statistician George Leslie of the state board of health. In 1910, out of the total number of deaths in the state, 28.4 per cent were natives, 27.6 per cent were natives of other states, 8.1 per cent were foreigners and 8 per cent were of unknown nationality. Out of the 30,673 white deceased for the last year, 26,892 were born in California.

PIONEER FACTORYMAN DEAD, SAN JOSE, July 23.—William M. Wilcox, a pioneer of this county and the builder of the first factory in this part of the state, died at his home on the Alameda here yesterday. He was 74 years old, and since early in the '60s has operated a broom factory in this city.

Buy it now. Now is the time to buy a bottle of Chamberlain's Collo. Cholera and Diarrhoea Remedy. It is almost certain to be needed before the summer is over. This remedy has no superior. For sale by Osgood Bros. Drug Stores.

HENWOOD SCORES COLORADO JUDGE

Declares Murder Trial Was Excuse for Airing Divorce Case.

DENVER, Colo., July 23.—Frank H. Henwood, convicted of murder in the second degree for killing George E. Copeland while shooting at S. L. von Phul, St. Louis balloonist, whom he also killed in the El Paso Hotel harroom on the night of May 24, was sentenced yesterday to life imprisonment.

John T. Button, attorney for the defense, announced that he would ask a supersedeas and, failing in this, would appeal to the Supreme Court.

Never in the Denver courts have presiding judge and prosecutor been subjected to such an exorcism as that pronounced by Henwood when asked what he had to say why sentence should not be pronounced.

Henwood's face was set as he walked to the bar and began:

"I come for sentences—but not for justice from a jail where I have been surrounded for two months by prisoners whose faces become blanched and who tremble with fear when they contemplate coming to this court for trial as long as Judge Whitford sits in this division."

Henwood characterized his treatment by court and prosecutor as "persecution, not prosecution," declared that his attorney had been "bound and gagged by rulings of the court," asserted that his trial for killing Copeland had been turned in reality into a preliminary hearing of the divorce suit brought by John W. Springer.

"SPRINGER'S BEST FRIEND."

He recalled that he had been denounced by the prosecutor as "a destroyer of Springer's home," but maintained that he was, and is today, "John W. Springer's best friend."

Henwood charged that when it was seen on the first day Mrs. Springer was on the stand that she possessed knowledge which would "prove advantageous to me," she was excused.

"A few days later when she was recalled," Henwood continued, "the bars were put up. Mrs. Springer was not only intimidated, but a package of letters written by her to S. L. von Phul were placed on the prosecutor's table in plain view, and she was confronted with a threat that they would be read in open court if she testified to any facts in my behalf."

"Not only this, but her otherwise keen mind was dulled by drugs."

"I am now ready for your unjust sentence," he concluded.

JUDGE NOT SURPRISED.

Judge Whitford listened attentively to every word of the defendant.

"I am not surprised," the court said, "at your state of mind, as you come from a jail where for two months you have been surrounded by all classes of prisoners, fourteen of whom I recently sent there."

"I am of the opinion that the verdict of the jury in your case should have been of second degree murder. I believe that you shot Von Phul because of jealousy over Mrs. Springer."

"But for some reason the jurors returned a finding of second degree murder. The law leaves the sentence to be imposed in the discretion of the court."

"It is the opinion of this court that you shall be imprisoned in the penitentiary at Canon City for life."

OLD GUARD HEARS TAPS WHEN WOODRUFF GOES

NEW YORK, July 23.—The ousting of Timothy L. Woodruff, former Lieutenant-governor, as leader of Kings county, is said in best informed political circles, to mean the passing of old guard control of the Republican party in New York state. The loss of power by Woodruff unquestionably pincers Criminalist Barnes Jr., of Albany, who was the most implacable foe of Roosevelt's policies. In the minority, and it is predicted that Barnes will have to step down and out.

Barnes and Woodruff have joined forces on all issues and combined to reorganize the state committee after the election.

The old guard of politics was older.

According to the story told by J. A. Runyan of the Kansas City Commercial club by Morian, a "J. B. Haggins" of Chicago" several months ago visited his section of Iowa and made friends with Morian and his neighbor. Later the two often sent small amounts of money, which "Haggins" would bet on horse races. The farmers won many times the amount they bet.

A short time ago, on promise of winning fortune, the farmers mortgaged their home to "Haggins" each and forwarded the money to "Haggins".

A few days later he went to see him and won and asked them to meet him in Kansas City and get the money.

JOHNSTONE SETS NEW ENDURANCE RECORD

MINEOLA, N. Y., July 23.—St. Croix Johnstone, the Chicago aviator who broke the American endurance record for monoplanes and biplanes yesterday when he remained in the air 4 hours 1 minute and 53 seconds, circled the aviation course, about five miles, thirty-nine times.

He was compelled to alight before his 50 gallons of gasoline were consumed because of engine trouble in his all-American Molsant monoplane.

The previous American record was made at San Francisco on January 20, last, by Parmalee, 8 hours, 80 minutes, at 49% gasoline.

Counting gasoline, oil and accessories, with his own weight, Johnstone carried about 500 pounds in his flight, which was made at a rate close to 60 miles an hour, and about 300 feet above the ground, in a gentle breeze.

Although his engine was skipping badly, Johnstone said he could have remained aloft much longer.

"I had taken some sandwiches up with me," he said, "but when I came to eat them, I found them soaked with oil. I was very hungry and came down to get something to eat."

BANKER ARRIVES TO STUDY CATTLE QUESTION

NEW YORK, July 23.—Fernand Farquhar, a London banker arrived in New York today on the *Mauritania*. He will spend several weeks in the West as the representative of English syndicates, investigating a plan to ship American cattle to Britain, where the syndicate believes better pasture can be found and a superior breed of beef cattle raised for the English market.

AMUSEMENT FIRM BREAKS.

PORTLAND, Me., July 23.—The amusement firm of Keth & Proctor was formally dissolved yesterday. The houses controlled by the combination are to be divided between the members of the firm on a pro rata basis.

EXCITING LIFE.

"Twenty-one years ago I faced an awful death," writes H. B. Martin, Port Harrold, S. C. "Doctors said I had consumption and the dreadful cough had looked like it, sure enough. I tried everything I could hear of for my cough, and was told to go to the best doctor in Georgetown, S. C. for a cure, but could get no relief. A friend advised me to try Dr. King's New Discovery. I did so, and was completely cured. I feel that it gave my life back to me. It's a great throat and lung cure. It's especially guaranteed for coughs, colds and all bronchial affections. 50¢ and \$1. Trial bot.

HAD TWO WIVES; NOW HAS NONE

Walks Into Court With Too Many Spouses; Walks Out Free.

NEW YORK, July 23.—Charles Hoffman, convicted of murder in the second degree for killing George E. Copeland while shooting at S. L. von Phul, St. Louis balloonist, whom he also killed in the El Paso Hotel harroom on the night of May 24, was sentenced yesterday to life imprisonment.

John T. Button, attorney for the defense, announced that he would ask a supersedeas and, failing in this, would appeal to the Supreme Court.

"The court expressed sympathy for Hoffman. He granted the second wife an annulment of her marriage and the first wife a divorce, naming the second wife as correspondent. Hoffman appeared to be deeply in love with the second wife, and was disconsolate when she declined to remarry him.

Hoffman's face was set as he walked to the bar and began:

"I come for sentences—but not for justice from a jail where I have been surrounded for two months by prisoners whose faces become blanched and who tremble with fear when they contemplate coming to this court for trial as long as Judge Whitford sits in this division."

Henwood characterized his treatment by court and prosecutor as "persecution, not prosecution," declared that his attorney had been "bound and gagged by rulings of the court," asserted that his trial for killing Copeland had been turned in reality into a preliminary hearing of the divorce suit brought by John W. Springer.

"SPRINGER'S BEST FRIEND."

He recalled that he had been denounced by the prosecutor as "a destroyer of Springer's home," but maintained that he was, and is today, "John W. Springer's best friend."

Henwood charged that when it was seen on the first day Mrs. Springer was on the stand that she possessed knowledge which would "prove advantageous to me," she was excused.

"A few days later when she was recalled," Henwood continued, "the bars were put up. Mrs. Springer was not only intimidated, but a package of letters written by her to S. L. von Phul were placed on the prosecutor's table in plain view, and she was confronted with a threat that they would be read in open court if she testified to any facts in my behalf."

"Not only this, but her otherwise keen mind was dulled by drugs."

"I am now ready for your unjust sentence," he concluded.

JUDGE NOT SURPRISED.

Judge Whitford listened attentively to every word of the defendant.

"I am not surprised," the court said, "at your state of mind, as you come from a jail where for two months you have been surrounded by all classes of prisoners, fourteen of whom I recently sent there."

"I am of the opinion that the verdict of the jury in your case should have been of second degree murder. I believe that you shot Von Phul because of jealousy over Mrs. Springer."

"But for some reason the jurors returned a finding of second degree murder. The law leaves the sentence to be imposed in the discretion of the court."

"It is the opinion of this court that you shall be imprisoned in the penitentiary at Canon City for life."

OLD GUARD HEARS TAPS WHEN WOODRUFF GOES

NEW YORK, July 23.—The ousting of Timothy L. Woodruff, former Lieutenant-governor, as leader of Kings county, is said in best informed political circles, to mean the passing of old guard control of the Republican party in New York state. The loss of power by Woodruff unquestionably pincers Criminalist Barnes Jr., of Albany, who was the most implacable foe of Roosevelt's policies. In the minority, and it is predicted that Barnes will have to step down and out.

Barnes and Woodruff have joined forces on all issues and combined to reorganize the state committee after the election.

The old guard of politics was older.

According to the story told by J. A. Runyan of the Kansas City Commercial club by Morian, a "J. B. Haggins" of Chicago" several months ago visited his section of Iowa and made friends with Morian and his neighbor. Later the two often sent small amounts of money, which "Haggins" would bet on horse races. The farmers won many times the amount they bet.

A short time ago, on promise of winning fortune, the farmers mortgaged their home to "Haggins" each and forwarded the money to "Haggins".

A few days later he went to see him and won and asked them to meet him in Kansas City and get the money.

JOHNSTONE SETS NEW ENDURANCE RECORD

MINEOLA, N. Y., July 23.—St. Croix Johnstone, the Chicago aviator who broke the American endurance record for monoplanes and biplanes yesterday when he remained in the air 4 hours 1 minute and 53 seconds, circled the aviation course, about five miles, thirty-nine times.

He was compelled to alight before his 50 gallons of gasoline were consumed because of engine trouble in his all-American Molsant monoplane.

The previous American record was made at San Francisco on January 20, last, by Parmalee, 8 hours, 80 minutes, at 49% gasoline.

Counting gasoline, oil and accessories, with his own weight, Johnstone carried about 500 pounds in his flight, which was made at a rate close to 60 miles an hour, and about 300 feet above the ground, in a gentle breeze.

Although his engine was skipping badly, Johnstone said he could have remained aloft much longer.

"I had taken some sandwiches up with me," he said, "but when I came to eat them, I found them soaked with oil. I was very hungry and came down to get something to eat."

BANKER ARRIVES TO STUDY CATTLE QUESTION

NEW YORK, July 23.—Fernand Farquhar, a London banker arrived in New York today on the *Mauritania*.

He will spend several weeks in the West as the representative of English syndicates, investigating a plan to ship American cattle to Britain, where the syndicate believes better pasture can be found and a superior breed of beef cattle raised for the English market.
